**The Creative Mind** Henri Bergson, 1946      The Creative Mind Henri Bergson, 1968 This collection comprises first of all two introductory essays written especially for it and consequently heretofore unpublished They make up a third of the volume The rest are articles or lectures mostly out of print which appeared in France or in other countries Taken as a whole they date from the period between 1903 and 1923 They bear mainly upon the method I believe should be recommended to the philosopher To go back to the origin of this method to trace the direction it impresses upon research is the particular object of the two essays which make up the introduction      *An Introduction to Metaphysics* Henri Bergson, 1970      An Introduction to Metaphysics Henri Bergson, 1989      *Creative Mind* Ernest Holmes, 1926      Bergson-Arg Philosophers A.R. Lacey, 2010-07-13 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company      **The Craft of Qualitative Longitudinal Research** Bren Neale, 2021-03-17 Brimming with life maps life history calendars and extracts from transcripts and diaries this book illustrates by example the unique principles challenges and applications of qualitative longitudinal research Synthesizing current literature on qualitative longitudinal research it brings together sociological theory and empirically driven longitudinal studies while also highlighting a range of possible research approaches With a consistent balance of conceptual discussions with hands on advice it provides readers with the foundation to adapt lessons learned from other researchers to fit their own qualitative longitudinal studies Supported by research tools such as conceptual road maps short data extracts consent forms and other data organization tools this book provides everything postgraduate researchers need to transition from the classroom to the field      *The ^AProper Study of Religion* Sam Gill, 2020-08-14 In *The Proper Study of Religion* Sam Gill charts an innovative course of development for the academic study of religion by engaging the legacy of Jonathan Z Smith Gill s teacher and mentor for fifty years Building on Smith s foundational legacy through creative encounters Gill explores an extensive range of absorbing topics including comparison as essential to academic technique and to human knowledge itself play philosophically understood as a core dynamic of Smith s entire program the relationship of academic document based studies to the sensory rich real world of religions and self moving as providing a biological and philosophical foundation on which to develop and expand upon a proper academic study of religion      **Morality in Evolution** Idella J. Gallagher, 2012-12-06 *Les Deux Sources de la Morale et de la Religion* is not a book to leave one indifferent Those who are persuaded by its argument or inspired by its message are prone to manifest the same enthusiasm as Georges Cattai who praised it as one of the greatest and wisest books conceived by philo sophers Even those who take exception to the doctrine it expounds are impelled to acknowledge its significance It was in his critique of *Les Deux Sources* that Jacques Maritain was moved to call the philosophy of Henri Bergson one of the most daring and profound of our time When many years ago I opened *Les Deux Sources* for the first time I turned out of curiosity to the last page and beheld these words l univers est une machine it faire des dieux Bergson was an evolutionist but surely this was no ordinary

evolutionist speaking I thought What must be the moral philosophy of a man who would write these words When much later I undertook the present study it was this same question which concerned me *Philosophy, Animality and the Life Sciences* Wahida Khandker,2014-07-21 Using animals for scientific research is a highly contentious issue that Continental philosophers engaging with the animal question have been rightly accused of shying away from Now Wahida Khandker asks whether Continental approaches to animality and organic life will make us reconsider our treatment of non human animals By following its historical and philosophical development she argues that the concept of pathological life as a means of understanding organic life as a whole plays a pivotal role in refiguring the human animal distinction She explores the significance of this across philosophy and the life sciences through the work of a number of key thinkers of life and process from Henri Bergson to Donna Haraway *The Prophetic Poet and the Spirit of the Age: Why Hawthorne was melancholy* Marion Montgomery,1981 **Reflections on De Gaulle** Will Morrissey,2002-02-15 The battle of the books between ancient and modern continues to have decidedly unbookish consequences The French Statesman Charles de Gaulle fought an incident in this war founding a political regime in modernity whose principles transcended modern political philosophy De Gaulle rejected both bourgeois democracy and anti bourgeois totalitarianism framing a republicanism hospitable to civic responsibility and human greatness *Reflections on De Gaulle* first published in 1983 remains the only book centered on textual interpretation of each of de Gaulle s major works themselves part of his lifelong enterprise to bring a stable republican government to France Will Morrissey examines de Gaulle s works from *La discorde chez l ennemi* his incisive critique of the German elites quasi Nietzschean overreaching in the First World War to *Mémoires d espoir* his magisterial account of the founding of the Fifth Republic The text has been corrected and entirely reset in an attractive format for greater ease of use *Creative Writing and Art History* Catherine Grant,Patricia Rubin,2012-03-19 *Creative Writing and Art History* considers the ways in which the writing of art history intersects with creative writing Essays range from the analysis of historical examples of art historical writing that have a creative element to examinations of contemporary modes of creative writing about art Considers the ways in which the writing of art history intersects with creative writing Covers a diverse subject matter from late Neolithic stone circles to the writing of a sentence by Flaubert The collection both contains essays that survey the topic as well as more specialist articles Brings together specialist contributors from both sides of the Atlantic **Creative Mind** Ernest Shurtleff Holmes,2016-08-08 Ernest Shurtleff Holmes was the founder of the Church of Religious Science Religious Science like many New Thought faiths emphasizes positive thinking influence of circumstances through mental processes recognition of a creative energy source and of natural law Holmes had an immense influence on New Age beliefs particularly his core philosophy that we create our own reality In *Creative Mind* Ernest Shurtleff Holmes explores what it means to be a human being and how we all can become better human beings He explores the role of man and God Higher Power and how they can be or are one This book will help you feel more in tune with the greater forces of
