Dialogue And Syncretism An Interdisciplinary Approach:

Dialogue and Syncretism, 2024-12-09 *Dialogue and Syncretism* Gort Jerald, 1989 *Dialogue Derailed* Ambrose Mong, 2014-11-17 Joseph Ratzinger has shaped and guided the church's understanding of its mission to proclaim the good news as well as to forge good relations with non-Catholic Christian communities, other religious traditions, and the secular world at large. Through a critique of Ratzinger's theology, this book draws attention to the importance of theological discourses originating from non-European contexts. Mong highlights the gap between a dogmatic understanding of the faith and the pastoral realities of the Asian church, as well as the difficulties faced by Asian theologians trying to make their voices heard in a church still dominated by Western thinking. While Mong concurs with much of Ratzinger's analysis of the problems in modern society, such as aggressive secularism and crisis of faith in Europe, he focuses attention on the realities of religious pluralism in Asia, which require the church to adopt a different approach in its theological formulations and pastoral practices.

Secular Faith Vincent William Lloyd, Elliot A. Ratzman, 2011-01-01 Is faith a necessary virtue in the contemporary world? May it be, or must it be, detached from religious commitment? What do genealogies of the secular tell us about faith? Does religion need secular faith? *Secular Faith* brings together leading and emerging scholars to reflect on the apparent paradox of secular faith. Ranging over anthropology, religious studies, political science, history, and literature, from Muslims in China to Pentecostals in South Africa to a prison chapel in Texas, this collection of essays is as engaging and accessible as it is penetrating and rigorous. Communism was once labeled the god that failed. Like Christianity, Communism involves faith in a superhuman endeavor, conversion, myth, discipline, and salvation, and from the perspective of secular liberalism, both are unjustified and false. In recent years, scholars have begun to investigate whether secularism is itself based on faith in a god that failed or is failing. Nevertheless, many still embrace such a faith, finding in the spirit of democracy an ethos of eternal renewal. *Secular Faith* enters and broadens this conversation, interrogating secular faith in a global context, tapping new theoretical resources, and grappling provocatively with the tragedies and opportunities of today's profane pantheon of beliefs.

Christianity in the Modern World Ambrose Mong, 2022-01-27 The influence of religion on culture is as strong as ever, but the shape of that influence is unique in today's pluralistic society. In *Christianity in the Modern World*, Ambrose Mong examines critically themes of religious commitment and tolerance, attitudes towards other religions, and the sociological aspects of religion and inter-religious dialogue. He provides an overview of factors that challenge traditional religion, from the relationship between monotheistic and polytheistic beliefs to the history of tolerance and intolerance in the church and the future of secularism. Following the global ethics formulated by the late Hans Kung, Mong also engages with the dialogue between Jürgen Habermas and Joseph Ratzinger to provide an extensive defence of the importance of inter-religious dialogue, with particular relevance to multiple religious belonging in the Asian context. Scholars of world religions will find Mong's

analysis compelling while students will find his introduction to the historical dialectics underlying many of today's tensions illuminating

Global Dictionary of Theology William A. Dyrness, Veli-Matti Kärkkäinen, 2009-10-25

Theological dictionaries are foundational to any theological library But until now there has been no Global Dictionary of Theology a theological dictionary that presumes the contribution of the Western tradition but moves beyond it to embrace and explore a full range of global expressions of theology The Global Dictionary of Theology is inspired by the shift of the center of Christianity from the West to the Global South But it also reflects the increase in two way traffic between these two sectors as well as the global awareness that has permeated popular culture to an unprecedented degree The editorial perspective of the Global Dictionary of Theology is an ecumenical evangelicalism that is receptive to discovering new facets of truth through listening and conversation on a global scale Thus a distinctive feature of the Global Dictionary of Theology is its conversational approach Contributors have been called on to write in the spirit of engaging in a larger theological conversation in which alternative views are expected and invited William A Dyrness Veli Matti Kärkkäinen Juan F Martinez and Simon Chan edit approximately 250 articles written by over 100 contributors representing the global spectrum of theological perspectives Pastors theological teachers theological students and lay Christian leaders will all find the Global Dictionary of Theology to be a resource that unfolds new dimensions and reveals new panoramas of theological perspective and inquiry Here is a new launching point for doing theology in today's global context

Models of Contextual Theology Stephen B. Bevans, 2002 Stephen B Bevans's Models of Contextual Theology has become a staple in courses on theological method and as a handbook used by missionaries and other Christians concerned with the Christian tradition's understanding of itself in relation to culture First published in 1992 and now in its seventh printing in English with translations underway into Spanish Korean and Indonesian Bevans's book is a judicious examination of what the terms contextual theology and to contextualize mean In the revised and expanded edition Bevans adds a counter cultural model to the five presented in the first edition the translation the anthropological the praxis the synthetic and the transcendental model This means that readers will be introduced to the way in which figures such as Stanley Hauerwas John Milbank Lesslie Newbigin and occasionally Pope John Paul II need to be taken into account The author's revisions also incorporate suggestions made by reviewers to enhance the clarity of the original three chapters on the nature of contextual theology and the five models

Fachbuch aus dem Jahr 2012 im Fachbereich Theologie Sonstiges Sprache Deutsch Abstract Since the 1960s African theology has been a locus of debate on the relevance of the Christian God in African societies Pioneer African theologians felt the need to protest against what was considered as the disregard or even denial of African religions cultures by Western

missionaries They called for a theology that would take seriously African religious values The Christological inquiry that is the question about how to present Christ meaningfully to Africans has dominated this debate for more than 30 years This enquiry is based on the assumption that missionary Christianity did not bring God to Africa rather it brought Christ Hence presenting Christ through African symbols will help Africans to become Christians without losing their identity However there seem to be a shift in the recent times Young African theologians see the need to move away from a cultural nostalgic anti missionary theology to a free expression of the Christian faith in such a way that it responds to the Africans present search for meaning as well as the necessary healthy tension between the Gospel and Cultures This theology is more critical and kerygmatic While prolonging the intuition of pioneer African theologians it seeks to offer broader scriptural and dogmatic bases to faith interpretation in Africa The book *Jesus in Post Missionary Africa Questions and Issues in African Contextual Christology* proposed here by the Claretian theologian Nicholas Mbogu takes its place in this refreshing shift of emphasis The author states clearly that our proclamation of God in Africa will be seriously deficient without an adequate Christology The book is presented in ten chapters Chapters 1-3 present the origin and development of theology in Africa It is shown clearly that since the seminal gestures of Black priests who wrote the famous book *Des pretres noirs* s interrogant 1956 asking whether and how catholicity can integrate the Negritude African theology has affirmed and consolidated itself as a contextual theology that is mindful of orthodoxy With dexterity the author shows the interpretation of theology and historical events as well as historical science and literature Political and economic developments especially the search for independence and distorted systems of post colonial government also affected theology in Africa
