# Anthropology Of Space

**Terry C. Jones**

## **Anthropology Of Space:**

**Anthropology of Space and Place** Setha M. Low, Denise Lawrence-Zúñiga, 2003-02-04 Over the last two decades anthropologists have drawn on insights from ethnographic inquiry to challenge accepted definitions and ideas of space and place Their efforts have led to an understanding that both the conceptual and material dimensions of space as well as of built forms and landscape characteristics are central to the production and reproduction of social life The Anthropology of Space and Place Locating Culture is an unprecedented collection of key articles presented explicitly for students and researchers in anthropology environmental psychology sociology architecture geography and urban planning The volume includes an introduction that synthesizes existing literature highlights core issues and maps potential directions for future research

*The Anthropology of Space and Place* Setha M. Low, Denise Lawrence-Zúñiga, 2003 **Principles of Space**

**Anthropology** Cameron M. Smith, 2019-09-16 This book shows how anthropology can provide an innovative perspective on the human movement into space It examines adaptation to space on timescales of generations rather than merely months or years and uses evolutionary adaptation as a guiding theme Employing the lessons of evolutionary adaptation Principles of Extraterrestrial Anthropology recommends evolutionarily sound strategies of space settlement covering genetics at the organismal and population levels The author organizes the concept of cultural adaptation to environments beyond Earth according to observed patterns in human adaptation on Earth He uses original artwork and tables to help convey complex information in a form accessible to undergraduate and graduate students Though primarily written to engage students interested in space settlement and exploration who will eventually build a full anthropology of space settlement Principles of Extraterrestrial Anthropology is engaging to anthropologists across sub disciplines as well as scholars interested in the human dimensions of space exploration and settlement Just as the term exobiology was invented only a few decades ago to shape the field of space life studies exoanthropology is outlined to assist in the perpetuation of Earth life through human space settlement

**Spatializing Culture** Setha Low, 2016-08-12 This book demonstrates the value of ethnographic theory and methods in understanding space and place and considers how ethnographically based spatial analyses can yield insight into prejudices inequalities and social exclusion as well as offering people the means for understanding the places where they live work shop and socialize In developing the concept of spatializing culture Setha Low draws on over twenty years of research to examine social production social construction embodied discursive emotive and affective as well as translocal approaches A global range of fieldwork examples are employed throughout the text to highlight not just the theoretical development of the idea of spatializing culture but how it can be used in undertaking ethnographies of space and place The volume will be valuable for students and scholars from a number of disciplines who are interested in the study of culture through the lens of space and place

**Anthropology, Space, and Geographic Information Systems** Mark Aldenderfer, Herbert D. G. Maschner, 1996-07-18 Major advances in the use of geographic information systems have been

made in both anthropology and archaeology Yet there are few published discussions of these new applications and their use in solving complex problems This book explores these techniques showing how they have been successfully deployed to pursue research previously considered too difficult or impossible to undertake Among the projects described here are studies of land degradation in the Peruvian Amazon settlement patterns in the Pacific northwest ethnic distribution within the Los Angeles garment industry and prehistoric sociopolitical development among the Anasazi Following an introduction that discusses the theory of geographic information systems in relation to anthropological inquiry the book is divided into sections demonstrating actual applications in cultural anthropology archaeology paleoanthropology and physical anthropology The work will be of much interest within all these communities

**The Anthropology of Landscape** ,1995-06-29 Landscape has long had a submerged presence within anthropology both as a framing device which informs the way the anthropologist brings his or her study into view and as the meaning imputed by local people to their cultural and physical surroundings A principal aim of this volume follows from these interconnected ways of considering landscape the conventional Western notion of landscape may be used as a productive point of departure from which to explore analogous ideas local ideas can in turn reflexively be used to interrogate the Western construct The Introduction argues that landscape should be conceptualized as a cultural process a process located between place and space foreground actuality and background potentiality image and representation In the chapters that follow nine noted anthropologists and an art historian exemplify this approach drawing on a diverse set of case studies These range from an analysis of Indian calendar art to an account of Israeli nature tourism and from the creation of a metropolitan gaze in nineteenth century Paris to the soundscapes particular to the Papua New Guinean rainforests The anthropological perspectives developed here are of cross disciplinary relevance geographers art historians and archaeologists will be no less interested than anthropologists in this re envisaging of the notion of landscape

[Anthropology, Space, and Geographic Information Systems](#) Mark S. Aldenderfer,1996 Among the projects described here are studies of land degradation in the Peruvian Amazon settlement patterns in the Pacific northwest ethnic distribution within the Los Angeles garment industry and prehistoric sociopolitical development among the Anasazi Following an introduction that discusses the theory of geographic information systems in relation to anthropological inquiry the book is divided into sections demonstrating actual applications in cultural anthropology archaeology opaleoanthropology and physical anthropology

[Chicano Drivers of Ideas in Anthropology Across Space and Place](#) Carlos G. Vélez-Ibañez,1998

**Journal of Anthropology** ,1871    **Annual Review of Anthropology** ,1996    **Journal of the Anthropological Society of Oxford** Anthropological Society of Oxford,2002    **At Home** Irene Cieraad,2021-10-28 In a volume that brings together a wide range of disciplines art history sociology architecture cultural anthropology and environmental psychology Irene Cieraad presents a collection of articles that focuses on the practices and symbolism of domestic space in Western society These essays go beyond the discussion of conventional issues such as aesthetics and social standing At Home takes an

in depth anthropological look at how different cultures use their homes as a visual model of the culture's social structure

**Journal of Anthropological Research**, 2012 Journal - Royal Anthropological Institute of Great Britain and Ireland
