Antiphon A Study In Argumentation:

Antiphon Bodil Due,1980 *Gorgias and the New Sophistic Rhetoric* Bruce McComiskey,2002 In *Gorgias and the New Sophistic Rhetoric* Bruce McComiskey achieves three rhetorical goals he treats a single sophist s rhetorical techn art in the context of the intellectual upheavals of fifth century bce Greece thus avoiding the problem of generalizing about a disparate group of individuals he argues that we must abandon Platonic assumptions regarding the sophists in general and Gorgias in particular opting instead for a holistic reading of the Gorgianic fragments and he reexamines the practice of appropriating sophistic doctrines particularly those of Gorgias in light of the new interpretation of Gorgianic rhetoric offered in this book In the first two chapters McComiskey deals with a misconception based on selective and Platonic readings of the extant fragments that Gorgias s rhetorical techn involves the deceptive practice of manipulating public opinion This popular and ultimately misleading interpretation of Gorgianic doctrines has been the basis for many neosophistic appropriations The final three chapters deal with the nature and scope of neosophistic rhetoric in light of the non Platonic and holistic interpretation of Gorgianic rhetoric McComiskey postulates in his opening chapters He concludes by examining the future of communication studies to discover what roles neosophistic doctrines might play in the twenty first century McComiskey also provides a selective bibliography of scholarship on sophistic rhetoric and philosophy in English since 1900 **Witnesses**

and Evidence in Ancient Greek Literature Andreas Markantonatos,Vasileios Liotsakis,Andreas Serafim,2022-01-19 The fact that aspects of witnesses and evidence put them in the centre of the institutional and cultural e g religious literary construction of ancient societies indicates that it is important to keep offering nuanced approaches to the topic of this volume To advance knowledge of the processes of presenting witnesses and gathering or constructing evidence is in fact to better and more fully understand the ways in which deliberative Athenian democracy functions what the core elements of political life and civic identity are and how they relate to the system of using logos to make decisions For witnesses and evidence were important prerequisites of getting the Athenian citizenship and exerting the civic political identity as a member of the community It is important therefore all the matters that relate to information gathering and decision making to be examined anew Emphasis can be placed on a variety of genres to allow scholars recreate the fullest and clearest possible image about the witnessing and evidencing in antiquity Chapters in this volume include considerations of social political literary and moral theory alongside studies of the impact of information gathering and decision making in oratory and drama with a steady focus on the application of key ideas and values in social and political justice to issues of pressing ethical concern

Classical Rhetorics and Rhetoricians Michelle Ballif,Michael G. Moran,2005-03-30 Alphabetically arranged entries on roughly 60 leading rhetoricians of antiquity detail their lives and writings and cite works for further reading *Mnemosyne* ,1989 *Argument Evaluation and Evidence* Douglas Walton,2015-08-04 This monograph poses a series of key problems of evidential reasoning and argumentation It then offers solutions achieved by applying recently developed computational

models of argumentation made available in artificial intelligence Each problem is posed in such a way that the solution is easily understood The book progresses from confronting these problems and offering solutions to them building a useful general method for evaluating arguments along the way It provides a hands on survey explaining to the reader how to use current argumentation methods and concepts that are increasingly being implemented in more precise ways for the application of software tools in computational argumentation systems It shows how the use of these tools and methods requires a new approach to the concepts of knowledge and explanation suitable for diverse settings such as issues of public safety and health debate legal argumentation forensic evidence science education and the use of expert opinion evidence in personal and public deliberations
