Asian Issues 1985:

Asian Issues 1985 Eduardo Lachica, Evelyn Colbert, Lloyd I. Rudolph, Linda Y.C. Lim, 1986 Examines some of the key developments in Asia during 1985 and assesses their national regional or international impact This volume points out that while much of the region is politically stable some societies are struggling to resolve basic issues It also discusses the fragility of current trends in Asia as well as the new tensions created by the recent changes Co published with the Asia Society Asian issues 1985, 1986 **Civil Rights Issues Facing Asian Americans in the 1990s** United States Commission on Civil Rights, 1992 A report of the United States Commission on Civil Rights T p Asian Economic and Political Issues Frank H. Columbus, 1998 This study provides an analytical framework for the prime minister's role in Japan's decision making Two dimensions of faction exist within the government and the ruling party inter agency rivalry and intra party factions with which the leader must confront when pursuing a major policy Despite these obstacles the prime minister has at his disposal various sources of power with which he can play an imperative role to achieve a major policy goal His leadership style can be defined depending on what kind of sources of power they utilise in the policy process After examining these three cases Hashimoto's administrative reform Takeshita's tax reform and Nakasone's administrative reform this study introduces four types of leadership the political insider the grandstander the kamikaze fighter and the peace lover

Pacific-Asian Issues Robert A. Scalapino, Qimao Chen, 1986 The Pacific Rim And The Western World Philip West, Frans A.M. Alting Von Geusau, 2019-07-11 Analyzing the economic strategic and cultural elements that shape the attraction and the friction between the Pacific and Atlantic communities this book integrates European perspectives into a discussion that has traditionally been dominated by Asian and U S voices The authors take as their theme the uncertainty created by the Pacific Rim's new role in shifting the international balances of political and economic power Economic uncertainty has been fueled by Asia's trade surpluses with Western Europe and the United States with the West viewing its system of free world trade as working to the greater advantage of the Asia Pacific Strategic uncertainty pivots on the U S USSR superpower rivalry and on the growing influence of Japan and the PRC on the strategic balance in the Pacific Basin A more subtle and powerful constraint surfaces in the realm of culture in differing perceptions among the people of the Asia Pacific and the West concerning liberal values and the liberal underpinnings of the present system of world trade

Indonesia's Role in the Resolution of the Cambodian Problem M Nagendra Prasad, 2017-07-12 This title was first published in 2001 The author explores the role of peackemaker that Indonesia volunteered to play by way of resolving the complex Cambodian conflict He examines what motivated Indonesia how far the country lived up to ASEAN expectations and whether the country succeeded as a mediator **Recent Trends and Issues on Foreign Direct Investment in Asian and Pacific Developing Countries** Pradumna Bickram Rana, 1988 Agricultural Diversification Policies and Issues from East Asian Experience World Bank. Economic Growth and Poverty Reduction in Viet Nam Arsenio M. Balisacan, 2011-04 Viet Nam's dramatic transition and growth in the 1990s have been attributed to a series of reforms known as doi moi which began in the late 1980s Economic growth of nearly 8% yearly benefited the poor and reduced poverty from 61% in 1993 to 37% in 1998 The proportionate increases in the incomes of the poorest quintile were appreciably larger than those of the top 20 or 40% of the population This result is at variance with typical findings for other countries which indicate that welfare gains from growth are smallest for the lowest quintile and rise with income group The results for Viet Nam suggest that the faster the growth rate the lesser becomes the role of distributive factors that directly influence the poor's well being A print on demand report

Role of Infrastructure in Land-Use Dynamics and Rice Production in Viet Nam's Mekong River Delta Christopher Edmonds, 2008-06 Examines the role of infrastructure development and technical change in explaining increases in agricultural production and changes in land use in the Mekong Delta Region of Viet Nam during the mid 1990s The transportation costs involved in moving agricultural input and output between farms and markets significantly effect farm land use and production decisions Greater transport costs reduce the likelihood that farms adopt intensive cropping patterns or cultivate non rice crops Results suggest that the quality of local water management infrastructure is much more important than transport costs in explaining the increased intensity of land use and level of production observed in the Mekong Delta during the 1990s Illustrations

Strengthening the Economic Analysis of Natural Resource Management Projects Keith Ward, 2003 A review of a range of natural resources projects prepared during the 1990s by the Asian Development Bank ADB suggests that existing practices of economic analysis tend to capture only some of the impacts that such projects typically have Historically project analysis at ADB and elsewhere has tended to concentrate on identifying a monetized benefit in excess of 12 percent economic internal rate of return EIRR from direct resource use impacts and simply identifying and describing nonquantifiable impacts With the adoption of the ADB Environment Policy and the growing recognition that it is very often the poorest who suffer most from natural resource depletion and degradation a case is made that more analytic rigor in capturing as many as possible of the resource impacts of such projects is desirable This report therefore suggests some specific techniques to strengthen the economic analysis of natural resources projects including improving the application of the benefits transfer method defining the spatial boundaries of project economic analysis establishing an appropriate accounting stance for the project establishing the project's counterfactual i.e. without project situation and including the health impacts of such projects The use of appropriate discount rates for sensitivity analysis and

for investment decision making are discussed and guidance is given on presenting the results of a project analysis and summarizing the poverty reduction impact of natural resource management projects *Economic Analysis of Health Projects* Erik A. Bloom, Peter Choynowski, 2003 The economic analysis of health projects has not received the attention that projects in other sectors have received primarily because of perceived difficulties in quantifying economic benefits However there is a misconception that economic analysis is a simple calculation of an economic internal rate of return Rather it envelops a broader range of issues that includes the rationale for the project cost effectiveness demand for the project output economic viability sustainability and equity considerations The purpose of this technical note is to present an example of an approach to the economic analysis of a health project that may be used as a guide for future projects It is based on an actual health project approved by the Asian Development Bank for Cambodia that will be implemented over the period 2003 2006
