

2. Composition

Composition is the way the components of a work of art are arranged. Each composition has a different effect on the artwork. This chapter explains the different types of composition, what it entails, and provides examples of artworks that demonstrate this. At the end of this chapter, you'll find all these topics summarized in a diagram.

Horizontal composition: the composition is organized along an imaginary horizontal line. This often creates a calm, stable, and broad impression.

Vertical composition: the composition is arranged along an imaginary vertical line.

Diagonal composition: the arrangement runs along an imaginary diagonal line across the image plane. This can create a dynamic effect.
