Reliability and Alliance Interdependence Iain D. Henry, 2022-05-15 In Reliability and Alliance Interdependence Iain D Henry argues for a more sophisticated approach to alliance politics and ideas of interdependence It is often assumed that if the United States failed to defend an ally then this disloyalty would instantly and irrevocably damage US alliances across the globe Henry proposes that such damage is by no means inevitable and that predictions of disaster are dangerously simplistic If other allies fear the risks of military escalation more than the consequences of the United States abandoning an ally then they will welcome encourage and even praise such an instance of disloyalty It is also often assumed that alliance interdependence only constrains US policy options but Henry shows how the United States can manipulate interdependence to set an example of what constitutes acceptable allied behavior Using declassified documents Henry explores five case studies involving US alliances with South Korea Japan the Republic of China the Philippines Australia and New Zealand Reliability and Alliance Interdependence makes a substantial contribution to our understanding of how America s alliances in Asia function as an interdependent system **Official Gazette** Japan, 1950 *The New Rational Typewriting* Rupert Pitt So Relle, 1923 Assignment Tokyo Edward S.
