Dead Trees:

Life in Dead Trees Art Barela, 2025-10 What dead trees mean to me is hardly complex although it might seem a bit reaching for some Dead trees are simply the souls of remembrance The enduring The still standing The dusty dirty worn out beat up The mostly weathered sometimes wronged and often regretful They are the old shadow casters that hold their place against new days They slump they tilt they lean but they somehow remain They are the hangers on They ask for nothing short perhaps of the occasional acknowledgment in simply being They are the ones that were here way back when They are the ones that bore witness to so much and so little They are most of all those who stand convinced that they would have made a move if they could If only they could have made more of a difference They are the sorry the remorseful the woe some and wondering still Not yet blown completely away on the cold breezes and hard heated sweltering days that blast then bake every new tomorrow They may not have answers but they have observations They have a sense of perspective that so few would stop and care to ask about They are the backdrop to times forgotten with their tired old branches outreaching No more leaves to drop No more blossoms to draw attraction But they would surely be the storytellers They do have stories to tell They may be tired but they all have a little left Those old dead trees they were here way back when Some are here still and they do remember a few things Won't you sit with me in the shade of a dead tree We can imagine together just how many great stories it might have to share with the both of us **Aboveground Tree Biomass Statistics for Maine** Eric H.
