Americanization Process In The Second Generation:

The Quest for Political Unity in World History Stanley McCrory Pargellis,1944 **Migration, Transnationalization, and Race in a Changing New York** Héctor R. Cordero-Guzmán,Robert C. Smith,Ramón Grosfoguel,2001 In this work 19 scholars from a range of disciplines discuss New York s immigrant communities They explore the interaction between economic globalization and transnationalization demographic change and the evolving racial ethnic and gender dynamics in the city The Survey ,1922 Proceedings of the Conference on Familial Relations ,1929 **Social and Religious Life of Italians in America** Enrico C. Sartorio,Henry Charles Sartorio,1918 **Trends in Ethnic Identification Among Second-Generation Haitian Immigrants in New York City** Flore Zephir,2001-06-30 The author conducted extensive interviews with both first and second generation immigrants in New York City revealing that second generation Haitian immigrants do not have one single identity Rather they exhibit multiple identities that are shaped by both the American realities and the home and familial context The author describes in detail the various macro and micro factors that account for this great variation in ethnic identification and discusses the implications of these identity choices for American society at large Unlike their parents who do not consider themselves American but rather birds of passage and who additionally because of their distinctive foreign accents are not perceived to be American the children of Haitian immigrants have the option of being less ethnic In fact they are very often seen by others as merely American In light of this distinction the central questions posed in the present study are the following Are Haitian families successful at passing on to their offspring the same ethnic feelings identification culture and values How do their children choose to define themselves Do they consider themselves American or more specifically African American Is being ethnic important to their self image In what way does the home environment influence their ethnic choices What role do the American realities that surround them play in shaping Haitian youth identity What are the manifestations and implication of these identifies **Navigating Model Minority Stereotypes** Rupam Saran,2015-08-11 Though Asian Indians are typically thought of as a model minority not much is known about the school experiences of their children Positive stereotyping of these immigrants and their children often masks educational needs and issues creates class divides within the Indian American community and triggers stress for many Asian Indian students This volume examines second generation America born and 1 5 generation foreign born Asian Indians as they try to balance peer culture home life and academics It explores how through the acculturation process these children either take advantage of this positive stereotype or refute their stereotyped ethnic image and move to downward mobility Focusing on migrant experiences of the Indian diasporas in the United States this volume brings attention to highly motivated Asian Indian students who are overlooked because of their cultural dispositions and outlooks on schooling and those students who are more likely to underachieve It highlights the assimilation of Asian Indian students in mainstream society and their understandings of Americanization social inequality diversity and multiculturalism *Key Texts in American Jewish Culture*

Jack Kugelmass, 2003 *Key Texts in American Jewish Culture* expands the frame of reference used by students of culture and history both by widening the canon of Jewish texts and by providing a way to extrapolate new meanings from well known sources. Contributors come from a variety of disciplines including American studies, anthropology, comparative literature, history, music, religious studies, and women's studies. Each provides an analysis of a specific text in art, music, television, literature, homily, liturgy, or history. Some of the works discussed, such as Philip Roth's novel *Counterlife*, the musical *Fiddler on the Roof*, and Irving Howe's *World of Our Fathers*, are already widely acknowledged components of the American Jewish studies canon. Others, such as Bridget Loves Bernie, infamous for the hostile reception it received among American Jews, may be considered key texts because of the controversy they provoked. Still others, such as Joshua Liebman's *Piece of Mind* and the radio and TV sitcom *The Goldbergs*, demonstrate the extent to which American Jewish culture and mainstream American culture intermingle with and borrow from each other.

Asian Settler Colonialism Candace Fujikane, Jonathan Y. Okamura, 2008-01-01 This title takes a look at indigenous views of Asian settlement in Hawaii over the past century. It is a valuable resource not only for Asian Americans in Hawaii but for all scholars and activists grappling with issues of social justice in other settler societies.

The United States has always been a nation of immigrants, shaped by successive waves of new arrivals. The most recent transformation began when immigration laws and policies changed significantly in 1965, admitting migrants from around the globe in new numbers and with widely varying backgrounds and aspirations. This comprehensive guide, edited and written by an interdisciplinary group of prominent scholars, provides an authoritative account of the most recent surge of immigrants. Twenty thematic essays address such topics as immigration law and policy, refugees, unauthorized migrants, racial and ethnic identity, assimilation, nationalization, economy, politics, religion, education, and family relations. These are followed by comprehensive articles on immigration from the thirty most significant nations or regions of origin. Based on the latest U.S. Census data and the most recent scholarly research, *The New Americans* is an essential reference for students, scholars, and anyone curious about the changing face of America.
