Americans First:

The American Experience with Alcohol G.M. Ames, L.A. Bennett, 2013-11-11 This volume is an important contribution to our understanding of culture and alcohol in the United States Its appearance is also a milestone in the history of alcohol studies in American anthropology Over the last six years the volume s editors initially along with Miriam Rodin have served as the coorganizers of the Alcohol and Drug Study Group of the American Anthropological Association AAA In this capacity they have organized sessions at the AAA and other meetings greatly strengthened the research network with a regular and informative newsletter and painstakingly promoted the publication of anthropological work on al cohool and drugs Appearing just as the responsibility for the Study Group is passed on to others this book is a fitting emblem of the care and energy with which its editors have built an institutional nexus for alcohol and drug anthropology in North America The contents of this volume offer a uniquely wide sampling of the diversity of cultural patterns that make up the American experience with alcohol The collective portrait the editors have assembled extends in several dimensions through time and history across such social differ entiations as gender age grade and social class and through such major social institutions as the church and the family Clearly the dominant dimension of variation in the material that follows however is ethnicity The book offers us a sampler of unprecedented richness of the different experiences with alcohol of American ethnoreligious groups

America since 1945 Paul Levine, Harry Papasotiriou, 2010-11-17 The period from 1945 to the present day may not constitute an American century but it can be seen as the American Moment the time when for good or ill the United States became the predominant political military economic and cultural power in the world This revised and updated new edition introduces the historic and tumultuous developments in American politics foreign policy society and culture during this period It includes coverage of key recent events such as the 2008 election of Barack Obama global recession protracted war in Iraq and Afghanistan rise of the internet transformation of American Society and Culture challenges of new immigration and multi culturalism changing global status of the US in the new millennium Examining the American Moment in a global context the authors emphasise the interaction between politics society and culture America Since 1945 encourages an awareness of how central currents in art literature film theatre intellectual history and media have developed alongside an understanding of political economic and social change
