Subject Guide to Children's Books In Print, 1996 R R Bowker Publishing,1996 **Investigation of the Assassination of President John F. Kennedy: Anti-Castro activities and organizations. Lee Harvey Oswald in New Orleans. CIA plots against Castro. Rose Cheramie. March 1979** United States. Congress. House. Select Committee on Assassinations,1978 *Towards a 'Natural' Narratology* Monika Fludernik,2002-11 In this ground breaking work of synthesis Monika Fludernik combines insights from literary theory and linguistics to provide a challenging new theory of narrative This book is both an historical survey and theoretical study with the author drawing on an enormous range of examples from the earliest oral study to contemporary experimental fiction She uses these examples to prove that recent literature far from heralding the final collapse of narrative represents the epitome of a centuries long developmental process

Children's Books in Print R R Bowker Publishing,Bowker,1999-12 **Contemporary Authors** Pamela Dear,1999 In response to the escalating need for up to date information on writers Contemporary Authors New Revision Series brings researchers the most recent data on the world s most popular authors These exciting and unique author profiles are essential to your holdings because sketches are entirely revised and up to date and completely replace the original Contemporary Authors entries For your convenience a soft cover cumulative index is sent biannually **Bowker's Guide to Characters in Fiction** ,2003 *What Do Young Adults Read Next?* Pam Spencer,Pam Spencer Holley,1994 Contains entries for over 1 300 books aimed at young adult readers Titles have been selected on the basis of their currency appeal to readers and literary merit **The Lever of Riches** Joel Mokyr,1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they

interact to help or hinder a nation's creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution. He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition. He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs. Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity. *The Lever of Riches* with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential. Care(ful) Relationships between Mothers and the Caregivers They Hire Andrea O'Reilly, Katie Bodendorfer Garner, 2023-12-14 *Careful Relationships between Mothers and the Caregivers They Hire* offers an interdisciplinary and international approach to the complex issues of carework primarily focusing on childcare. The diverse collection of authors center their examinations of care by interrogating how class race and gender interplay to create inequity and potential. The work shared in *Careful Relationships* draws from various disciplines including sociology anthropology media studies literary and dramatic analysis history and women's studies while also addressing carework as it is depicted in ages past and contemporary culture. The collection not only seeks to challenge misconceptions and inequity but also examine how the unique personal relationships that form in the labor of care can yield prosocial change. *Books in Print*, 1994

Children's Books in Print, 2007, 2006 **History and Story in the American Political Thriller Film** Pablo Castrillo Maortua, 2023-08-29 In this book Pablo Castrillo Maortua analyzes the emergence of the political thriller in Hollywood at a time of angst and turmoil in the United States. The Cold War the nuclear age domestic and international scandals and an increasingly deceitful political culture catalyzed a filmmaking current that would gradually develop its own narrative form and aesthetics into a new genre. Castrillo Maortua explores the dramatic identity and design of the American political thriller tracking the close correlation between the evolution of the genre and the history of the United States from the Cuban Missile Crisis to the 9/11 terrorist attacks and the ensuing War on Terror. Ultimately the author demonstrates how the American political thriller defies Hollywood conventions and cultural presuppositions with an entertaining yet critical view of the state of politics. Scholars of film studies screenwriting and genre theory will find this book of particular interest.
