

A photograph of an interior room. The wall is covered in patterned wallpaper with a floral and scrollwork design in shades of brown and gold. A large, cylindrical lamp with a textured, golden-brown shade sits on a wooden tripod stand to the right. In the foreground, a doorway is visible, with a dark bag hanging on the wall to the left. The overall lighting is warm and slightly dim.

*Dead Certain* Robert Draper, 2007-09-04 In this ambitious work of political narrative Robert Draper takes us inside the Bush White House and delivers an intimate portrait of a tumultuous decade and a beleaguered administration Virtually every page of this book crackles with scenes anecdotes and dialogue that will surprise even long time observers of George W Bush With unprecedented access to all the key figures of this administration from six one on one sessions with the president to Laura Bush Dick Cheney Donald Rumsfeld Condoleeza Rice Karl Rove and perhaps 200 other players some well known some not Draper has achieved what no other journalist or contemporary historian has done thus far he has told the story of the Bush White House from the inside with a special emphasis on how the very personality of this strong willed president has affected the outcome of events Bush loyalists and the growing number of Bush detractors will all find much to savor in this riveting political page turner We begin with a revealing lunch at the White House where a testy hot dog chomping president finally unburdens himself to the inquisitive reporter a fellow Texan who well understands the manly argot that courses through this administration We revisit the primaries of election year 2000 in which the character of the candidate and indeed the future of the Republican Party were forged in the scalding South Carolina battle with Senator John McCain We proceed forward to witness intimately the confusion and the eloquence that followed the September 11 attacks then the feckless attempts to provide electricity to a darkened Baghdad the high and lowlights of the 2004 re election bid the startling and fruitless attempt to spend capital by overhauling the Social Security system the inept response to Katrina the downward spiraling and increasingly divisive war in Iraq Though the headlines may be familiar the details the utterly inside account of how events transpired will come as fresh reportage to even the most devoted followers of mainstream media coverage In this most press wary of administrations Robert Draper has accomplished a small miracle He has knocked on all on the right doors and thus become the first author to tell a personality driven history of the Bush years In so doing he allows us to witness in complete granularity the personal force of a president determined to achieve big things who remained an optimist in the face of a sometimes harsh unpopularity who confronted the history of his time with what can surely be described as dead certainty
