based on the promising new paradigm of subject oriented business process management **Business Process Mapping**
Ali Darwish,2011 **Successful Business Process Management** Paula K. Berman,2014 Companies especially more
complex organizations require standard documented processes and procedures to achieve high levels of quality and
productivity Too few and inefficiency ensues too many and creativity is stifled Yet it can be difficult to find training on
process improvement and the range of complicated tools available could make even the most experienced professional s head
spin Successful Business Process Management fills the gap providing a succinct accessible overview of the field Step by step
instructions explain how to Overcome resistance and apathy to standard procedures Take a systematic rather than ad hoc
approach to process management Design key processes and capture them in documented procedures Revise existing
processes when feasible Roll out the changes so people know what to do Embed them in the organization for reliable
outcomes Process management serves as a structural framework for streamlining activities and creating smooth workflows
Get it right neither overly rigid nor under developed and an outflow of continuous improvements will drive long term success
