Amy And Jordan:

Male Bisexuality in Current Cinema Justin Vicari, 2014-01-10 In recent decades male bisexuality has become a recurring topic in international cinema as filmmakers and their works challenge our ideas about sexual freedom and identity In all of these films more than a dozen of which are covered here bisexuality is treated both as an actual practice and a complex metaphor for a number of things including the need to adapt to changing environments the questioning of rigidly traditional male roles and identities the breakdown and regeneration of the structures of families the limitations of monogamy and the stubborn affirmation of romantic love

James Dean Transfigured Claudia Springer, 2013-05-17 After the death of James Dean in 1955 the figure of the teen rebel permeated the globe and its presence is still felt in the twenty first century Rebel iconography which does not have to resemble James Dean himself but merely incorporates his disaffected attitude has become an advertising mainstay used to sell an array of merchandise and messages Despite being overused in advertisements it still has the power to surprise when used by authors and filmmakers in innovative and provocative ways The rebel figure has mass appeal precisely because of its ambiguities it can mean anything to anyone The global appropriation of rebel iconography has invested it with fresh meanings Author Claudia Springer succeeds here in analyzing both ends of the spectrum the rebel icon as a tool in upholding capitalism s cycle of consumption and as a challenge to that cycle and its accompanying beliefs In this groundbreaking study of rebel iconography in international popular culture Springer studies a variety of texts from the United States and abroad that use this imagery in contrasting and thought provoking ways Using a cultural studies approach she analyzes films fiction poems Web sites and advertisements to determine the extent to which the icon s adaptations have been effective as a response to the actual social problems affecting contemporary adolescents around the world

Visible Cities, Global Comics Benjamin Fraser, 2019-09-25 CHOICE Outstanding Academic Title for 2020 More and more people are noticing links between urban geography and the spaces within the layout of panels on the comics page Benjamin Fraser explores the representation of the city in a range of comics from across the globe Comics address the city as an idea a historical fact a social construction a material built environment a shared space forged from the collective imagination or as a social arena navigated according to personal desire Accordingly Fraser brings insights from urban theory to bear on specific comics The works selected comprise a variety of international alternative and independent small press comics artists from engravings and early comics to single panel work graphic novels manga and trading cards by artists such as Will Eisner Tsutomu Nihei Hariton Pushwagner Julie Doucet Frans Masereel and Chris Ware In the first monograph on this subject Fraser touches on many themes of modern urban life activism alienation consumerism fl nerie gentrification the mystery story science fiction sexual orientation and working class labor He leads readers to images of such cities as Barcelona Buenos Aires London Lyon Madrid Montevideo Montreal New York Oslo Paris S o Paolo and Tokyo Through close readings each chapter introduces readers to specific comics artists and works and

investigates a range of topics related to the medium's spatial form, stylistic variation, and cultural prominence. Mainly Fraser mixes interest in urbanism and architecture with the creative strategies that comics artists employ to bring their urban images to life.

Radical Form, Political Intent Robert Patrick Kinsman, 2007 This study argues that countercinema describes a fluid potentially global practice which integrates radical formal intervention with political intent in historically specific contexts This practice both limits and expands past and present applications of the term It includes more than the list of formal characteristics with which Peter Wollen accurately characterizes Godard's countercinema in 1972 but limits countercinema to those films which are formally radical politically minded and historically specific rather than any film or practice which is non patriarchal non capitalist and or non Hollywood
