## **An Adopted Woman:**

Mother Me Zara H. Phillips, 2011 The adopted daughter of loving parents Zara Phillips nonetheless felt out of place in her family and a misfit in the world around her Although cherished by a well meaning mother and father she grew up feeling deeply insecure and alone consumed by a void she found impossible to fill Isolation led to alienation yet her talent brought her to the center of the thriving London rock n roll scene of the 1980s Her downward spiral fueled by its lifestyle Zara became lost in drugs alcohol and destructive relationships An intense search for the truth of her birth led to an awakening and successful recovery Yet it was her experience of becoming a mother that revealed what being an adopted person really meant to her For the first time she gained deep understanding and compassion for both her birth mother and her adoptive mother and was able to start the healing process The tale of Zara s search for her birth mother and her path to health is riveting as are the stories of many people sharing her past Zara s activism for adoptee rights springs from a very personal passion Mother Me is a brave and compelling memoir that illuminates the lifelong impact of adoption on every member of the adoption triad adoptee birth mother and adoptive mother as well as the families of each

**Adopted Women and Biological Fathers** Elizabeth Hughes, 2017-03-01 Adopted Women and Biological Fathers offers

a critical and deconstructive challenge to the dominant notions of adoptive identity The author explores adoptive women s experiences of meeting their biological fathers and reflects on personal narratives to give an authoritative overview of both the field of adoption and the specific history of adoption reunion This book takes as its focus the narratives of 14 adopted women as well as the partly fictionalised story of the author and examines their experiences of birth father reunion in an attempt to dissect the ways in which we understand adoptive female subjectivity through a psychosocial lens Opening a space for thinking about the role of the discursively neglected biological father this book exposes the enigmatic dimensions of this figure and how telling the relational story of reconciliation might be used to complicate wider categories of subjective completeness belonging and truth This book attempts to subvert the culturally normative unifying system of the mother child bond and prompts the reader to think about what the biological father might represent and how his role in relation to adoptive female subjects may be understood This book will be essential reading for those in critical psychology gender studies narrative work sociology and psychosocial studies as well as appealing to anyone interested in adoption issues and female subjectivity

journey to find her birth mother she details how she jeopardizes her relationship with her adoptive parents and threatens the privacy of unsuspecting strangers all without any guarantee of a happy outcome When Titia embarks on her quest to find her birth family she immerses herself deep into her past not knowing that what she discovers in the end will transform her entire life

I was born in Canada in 1940 Pregnancy outside of marriage was a disgrace and young women who found themselves in such situations were whisked away and dumped into convents or hospitals Babies were taken out of the arms of young mothers often without their consent and sold to married couples They were smuggled across the U S Canadian Border Papers were forged or destroyed They were called black market babies I was one of these children Black Market Baby reveals my life growing up as an adoptee with its inherent sense of rootlessness abandonment and denial The writing of this book made my adoption real to me the shame of unwed mothers the shame of being different the shame of being abandoned by my own mother and born of a questionable past My parents didn't tell me until I was eleven years old a mistake made by many and I lived most of my adult life ignoring the fact of my true origins It wasn't until I was forty eight that I began to face the truth and start searching This story exists on many levels adoption divorce politics mystics and psychics backpacking into the wilderness to find solace facing health issues dealing with three daughters dropping out of the clichéd housewife existence to living the alternative lifestyle of an artist which has always been my secret desire It shows the difficulties of coping with the truth about my life and facing the realities of who I am it is a story of discovery
