Sternberg,Elena L. Grigorenko,2002-05-01 This edited volume presents a balanced approach to the ongoing debate of just how general the general factor of intelligence is To accomplish this goal the editors chose a number of distinct approaches to the study of intelligence psychometric genetic epistemological cognitive biological behavior genetic sociocultural systems and asked distinguished scholars to write from the standpoint of these approaches Each approach comprises two chapters one by a scholar leaning toward a view arguing for the greater generality of g and the other by a scholar leaning toward a view arguing for the lesser generality of g The scholars are not simply for or against these outlooks rather they provide a more textured view of the general factor attempting to explain it in psychological terms that are easily understandable Intended for psychologists in all areas including clinical consulting educational cognitive school developmental and industrial organizational this book will also be of interest to educators sociologists anthropologists and those interested in the nature of intelligence **Multisensory Integration as a Pathway to Neural Specialization for Print in Typical And Dyslexic Readers Across Writing Systems** Susana Araújo,Tânia Fernandes,Urs Maurer,2022-06-27 *Annals of Theoretical Psychology* Daniel N. Robinson,Leendert P. Mos,2013-11-11 Early in 1986 I invited Professor Robinson to collaborate on a volume of the Annals devoted to the theme of the person in psychology He accepted my invitation later that year suggesting instead that the volume be devoted to the theme of explanation in psychology I gladly compromised for as I knew from his exterisive writings on the history and philosophy of psychology the concept of explanation is firmly rooted in philosophical anthropology The contributions by Rom Harre James Lamiell Joseph Margolis and George Miller were available in June 1988 and the commentaries and replies to commentaries early in 1989 Fortunately foundational papers wear well as the content of the present volume so aptly testifies Beginning with Volume 6 the Annals will be entirely edited and prepared using the computer facilities at our Center Thanks to the dedicated effort of my colleague Professor William Baker this is the first volume produced from camera ready copy His personal support and technical expertise made the transition to desk top publishing somewhat less than formidable Mrs Valerie Welch our Center secretary entered the text and managed my personal correspondence Casey Boodt proofread the entire manuscript and the University of Alberta continues to support my involvement with this series Dan Robinson s commitment to scholarship also extends to the more mundane task of editing Every volume with a co editor is a challenge he made this one a delight *IAENG Transactions on Engineering Technologies* Haeng Kon Kim,Sio-Iong Ao,Mahyar A. Amouzegar,Burghard B.
