

# Algebra Basics

$$4x + 2x = 6x$$

$$7m - 4m = 3m$$

$$3y \times 5 = 15y$$

$$8t \div 4 = 2t$$

Be careful with these :-

$$4x + 7y = 4x + 7y$$

$$2a \times 9a = 18a^2$$

$$8t \div 2t = 4$$

$$6m^2 - 2m = 6m^2 - 2m$$

$$2(x+7) = 2x+14$$

Remember these :-

$$x + x + x = 3x$$

$$x \times x \times x = x^3$$

**Statistics and Research Methodology: A Gentle Conversation** P. Michael Politano, Robert O. Walton, Audrey E. Parrish, 2018-08 [A Gentle Conversation](#) Third Edition is meant to be a student-friendly introduction to research methodology and statistics aimed at allaying students' fears and anxieties about studying these topics. Our more conversational approach should help students feel as if the authors are standing by them, explaining concepts and procedures as they read through the text. We use examples throughout to clarify concepts and strengthen the connections between statistics, data, and research questions. The authors emphasize understanding not only the manipulation of statistical data but also what the actual findings mean in relation to significance, issues, samples, and populations. We cover effect size for all statistical inquiries from correlation to ANOVA.

**Breaking Barriers** Brian Cafarella, 2021-06-29 The fact college students often struggle in mathematics is not new. They exhibit a great deal of anxiety, dislike, and overall disinterest. Quantitative data displaying abysmal student success rates are widely available and shared. This book explores the complexity surrounding the issue of student difficulties in community college math. Though much quantitative research focuses on the faculty experiences and perspectives regarding methods and practices, the author puts the focus on students' experiences. The book presents the results of a study focused on students who struggled in mathematics. Though their experiences varied, they all entered community college with a great deal of disgust and anxiety toward mathematics courses and requirements. These impressions and attitudes create barriers to success. However, all the students eventually succeeded in fulfilling their college-level mathematics requirement. The author presents these students' experiences prior to entering community college, what led to

both success and failure in their math courses and the common themes leading to success and failure Through these student responses the author assists readers in gaining a better understanding of the community college student who struggles in math and how to break students community college math barriers to success
