The Early Political Writings of the German Romantics Frederick C. Beiser, 1996-03-14. The Early Political Writings of the German Romantics contains all the essential political writings of Friedrich Schlegel, Schleiermacher, and Novalis during the formative period of romantic thought, 1797 to 1803. While the political thought of the German romantics has been generally recognised as important, it has been little studied, and most of the texts have been until now unavailable in English. The early romantics had an ambition still relevant to contemporary political thought: how to find a middle path between conservatism and liberalism, between an ethic of community and the freedom of the individual. Frederick C. Beiser's edition comprises all kinds of texts relevant for understanding the political ideas of the early romantic circles in Berlin and Jena: essays, lectures, aphorisms, chapters from books, and jottings from notebooks. All have been translated anew, many for the first time.

**Ideology Studies** Michael Freeden, 2021-11-04. This book comprehensively collects the thinking over the last 25 years of one of the most important contemporary scholars in the field of ideology studies. Clearly organised, it expounds on the changing nature of the sub-discipline, its components, and methods of investigation. As such, it serves the need for a general, well-informed identification and elaboration of thematic possibilities in current ideology studies and represents the most developed and productive methodological approach to the study of ideologies in the last three decades. Freeden presents ideology studies as an evolving and vibrant field, encountering and surmounting a series of challenges in its successful path towards recognition as a fully legitimate and respected branch of political theory. This book will be of key interest to students and scholars of political ideologies, political theory, political philosophy, and more broadly to sociology, political science, anthropology, human geography, international studies, and the humanities.
