Circulating File Earth Changes:

Earth's Catastrophic Past and Future William Hutton, Jonathan Eagle, 2004-08 Edgar Cayce America's best documented psychic gave upwards of 44 readings that dealt with lost continents geophysical changes to Earth beginning 1958 1998 and a pole shift due to begin about now In this book geologist William Hutton and researcher Jonathan Eagle look for correspondences between results of geophysical research studies and psychic descriptions of prehistoric catastrophes They also seek scientifically to test readings predictions of catastrophic Earth changes all the while investigating the following fascinating subjects Development and calibration of a comprehensive pole shift model The countries predicted to be most affected by a sudden 1 pole shift The geologic trend for a mineralized gold vein at Bimini Bahamas The authors discoveries of correlations between a 2002 arctic earthquake and the eruption of torrid area volcanoes the dropping of atom bombs in 1945 and a significant increase in sunspots following and the peaceable nature of Europe in 1645 1715 and the period's near total lack of sunspots Cayce readings implied or predicted all three phenomena The first ever analysis of the sources of Cayce's channeled readings including a ranking of the veracity and reliability of the most important Earth changes and pole shift readings Moralistic reasons for future catastrophic geophysical changes to Japan China and America Locations of post pole shift safety lands in Canada and America Locations of the records of the Atlantean civilization to be found when Earth changes begin How to awaken to the New Cycle presently opening before humanity Evidence for Atlantis in the mid Atlantic ridge area and for Lemuria or Mu in the Pacific The consuming religious war in which we find ourselves and an answer to world conditions today Visions of an imminent Age ending fire as found in a Cayce reading in a channeled book by Phyllos the Tibetan and in the 1960s visions of girls at Garabandal Spain Doubtful interpretations of Earth changes and pole shift readings advanced by managers and writers of Cayce's legacy organization the Association for Research and Enlightenment Inc From the Foreword by the Editor The acid test of pole shift and other Earth change predictions is their scientific credibility If true momentous societal and political changes are imminent The geopolitical map of the world will be redrawn The authors are exploring the transition from the end of one Age to the beginning of another Nostradamus Sees the End of Time Rahn Heart, 2004-12 Stories about what happens at the end of a world age can be found in texts and legends from every corner of the world When these stories are compared to one another a universal set of circumstances is revealed The end of an age only declared when the following conditions were met **Fingerprints of the Gods** Graham Hancock, 2005-06-17 Could the story of mankind be far older than we have previously believed Using tools as varied as archaeo astronomy geology and computer analysis of ancient myths Graham Hancock presents a compelling case to suggest that it is Graham Hancock is featured in the popular Ancient Apocalypse a Netflix original docuseries Hancock structures his arguments through the scientific method He's asking the right questions If it's true then it can significantly change the course of history and our understanding of our civilisations Medium In Fingerprints of the Gods Hancock embarks on a

worldwide quest to put together all the pieces of the vast and fascinating jigsaw of mankind's hidden past. In ancient monuments as far apart as Egypt's Great Sphinx, the strange Andean ruins of Tiahuanaco, and Mexico's awe-inspiring Temples of the Sun and Moon, he reveals not only the clear fingerprints of an as yet unidentified civilization of remote antiquity but also startling evidence of its vast sophistication, technological advancement, and evolved scientific knowledge. A record-breaking #1 bestseller in Britain, *Fingerprints of the Gods* contains the makings of an intellectual revolution, a dramatic and irreversible change in the way that we understand our past and so our future. And *Fingerprints of the Gods* tells us something more. As we recover the truth about prehistory and discover the real meaning of ancient myths and monuments, it becomes apparent that a warning has been handed down to us, a warning of a terrible cataclysm that afflicts the Earth in great cycles at irregular intervals of time, a cataclysm that may be about to recur.
