Circulation Policy In Academic Public And School Libraries:

Circulation Policy in Academic, Public, and School Libraries Sheila S. Intner, 1987-03-23 Intner conducted a survey of academic public and school libraries in order to study circulation policies and practices prevalent in the U S From the data she gathered it is evident that much in the circulation process is not patron oriented and that there are still institutions that make access to information difficult She intimates that if library patrons were aware of the power they have they could effect drastic changes in circulation practices The book is of interest to all who use libraries but it is particularly pertinent reading for administrators Booklist This informative study is based on the responses of a sampling of academic public and school libraries to a survey conducted in 1983 The selection was made with a deliberate effort to include libraries of varying size focus and geographic area around the country and three vitally important policy issues were emphasized Who may borrow materials from the library What may they borrow How are materials borrowed and what process is followed when they are returned The answers provided by the sample group to these and other questions are described and analyzed and comparisons are made of the ways in each library formulates reviews and amends its policies and which plans are being made for the future

Access Services in Libraries Gregg Sapp, 1992 In the current information environment public and academic libraries are recognizing that providing access to materials is a complex multi dimensional phenomenon To meet the changing needs of their patrons libraries are reorganizing their service structures and developing organizational units called access services Even though access services fall within the realm of public services technical services or library circulations they are driven by an entirely new mentality There has been an extreme paucity of information on access services available for libraries struggling to meet the challenges of the electronic age Access Services in Libraries is the first book to establish a theoretical base for access services while also suggesting connections between theory and practice Anyone involved in access services or considering adoption of this new organizational unit will benefit from the information in this groundbreaking volume Access Services in Libraries provides fresh thinking that reexamines previous writings in this area presents new experimental designs and results creates contemporary organizational solutions and adopts innovative techniques for increasing users access to library materials within constrained budgets Access services

librarians circulation department librarians and library managers especially those who are considering a reorganization that will include access services will benefit from the philosophical and theoretical articles as well as practical advice on the design delivery and evaluation of responsive library services Chapters in this invaluable book fill the gap in the literature about access services including theoretical descriptions of access services current developing trends in access services the historical development of the access services concept practical studies related to common access services issues and projections of future challenges As Peter Watson Boone states in his preface This volume is notable for charting a new current of thinking and practice that is moving quickly into the mainstream It substantially documents the state of the art and should bring increased clarity and focus to the debate now proceeding in many libraries about how we are to honor a commitment to the access concept in the era when it will challenge the ownership concept as never before

The Responsive Public Library Collection Sharon L. Baker, 1993 Public libraries can operate more efficiently serve their communities better attract more users and supporters and raise more funding if they apply basic marketing principles and techniques to their operations This book shows how With a vision of the library as a healthy and integral part of the community the book offers effective strategies that apply marketing principles to such functions as library services and collection development

Library and Information Science Annual Bohdan S. Wynar, 1988-06 Library Times International, 1987 The Information World of Retired Women Elfreda A. Chatman, 1992-09-17 Using the profiles of women living in a retirement community the author explores the information and social worlds of aging women The focus of the study is the effects of aging on help seeking behaviors The author examines ways in which older women search for information she found several areas of need including failing health financial concerns and loneliness For many of the women death was not a problematic area The author also discovered that the most critical areas of need were not shared with others In fact the residents chose to conceal the most dire needs for assistance Surprisingly the retirement community played a major role in this process The

relationships between help seeking behaviors and information policy is extensively discussed The role that information professionals can play in bringing information to populations such as the one examined here adds insight to the studies of information use and user needs
