Cities With Little Crime:

The Safe City Leo van den Berg, 2006 Perceived safety is a major factor in a city's attractiveness and fear of crime can have a large impact on location decisions with ensuing economic consequences This book examines the role of security in urban development and its local policy implications Comparing eleven European cities it analyses how actual and perceived security is evolving and what the economic social and spatial consequences are of a changing perceived security

Understanding New York's Crime Drop Richard Rosenfeld, Karen Terry, Preeti Chauhan, 2020-09-10 This book explores New York City's historic crime drop over the past quarter of a century New York City's dramatic crime decline is a real brainteaser no one predicted it and as of yet no one has explained it at least to the satisfaction of most social scientists who study crime trends Three strategic lessons emerge from the contributions to this volume on New York's crime drop It is suggested that future research should go wide by putting New York in comparative context nationally and internationally go long by putting New York's recent experience in historical context develop a strong ground game by investigating New York's crime drop across multiple spatial units down to the street segment The contributors to Understanding New York's Crime Drop aim to provoke expanded and sustained attention to crime trends in New York and elsewhere This book was originally published as a special issue of the journal *Justice Quarterly*

Small-Town Russia Anne White, 2004-08-12 This book examines a number of key questions about social change in contemporary Russia issues such as how people survive when they are not paid for months on end the New Poor the falling birth rate why so many Russian men die in middle age whether regional identities are becoming stronger and how people's sense of Russianness has developed since the creation of the Russian Federation in 1992 It examines these issues by looking at actual experiences in three small Russian towns It includes a great deal of original ethnographic research and by looking at real places overall provides a good sense of how different aspects of social change are interlinked and how they actually affect real people's lives *Urbanization and Crime* Eric A.

Johnson, 2002-07-18 This 1995 book contributes to both modern German history and to the sociological understanding of crime in modern industrial and urban societies Its central argument is that cities in themselves do not cause crime It focuses on the problems of crime and criminal justice during Germany's period of most rapid urban and industrial growth a period when Germany also rose to world power status From 1871 to 1914 German cities despite massive growth socialist agitation and non ethnic German immigration were not particularly infested with crime Yet the conservative political and religious elites constantly railed against the immoral nature of the city and the German governmental authorities police and court officials often overreacted against city populations In so doing they helped to set Germany on a dangerous authoritarian course

Social and Physical Condition of Negroes in Cities Atlanta University, 1897 **Cities Ranked & Rated** Bert Sperling, Peter J. Sander, 2007-05-07 Evaluates more than four hundred metropolitan areas in the United States and Canada rating such factors as job market housing costs crime rates climate health care education and quality of life A Short

Course in American City Government Austin Faulks Macdonald,1929 **McClure's Magazine** ,1912 The Institution Quarterly ,1921 **Minutes of Evidence** Canada. Royal Commission on the Liquor Traffic,1895 *THE AMERICAN CITY* ,1928 Quality of Life in Cities Lesley Grayson,Ken Young,1994 Individual and corporate decisions about where to locate have a dramatic impact on the character and health of towns and cities What are the factors influencing these decisions and can they be measured This book provides the reader with both a detailed review of the subject and a list of key references for further reading Focusing on Britain America and Europe it tracks current thinking and research and addresses a selection of key factors governing how people perceive quality of life Divided into two parts section one examines the debate about what constitutes quality of life how to measure the quality of life and the factors determining quality of life as experienced by individuals Section two focuses on the issues and policy implications behind each of the following key local factors safety and security adequate and affordable shelter a well planned user friendly and humane place to live in a safe and healthy environment and public services which help sustain all these elements *City Club Bulletin* City Club of Philadelphia,1912 *Civilization Through Crime* Arthur Cleveland Hall,1901 The American City Arthur Hastings Grant,Harold Sinley Bittenheim,1929 The Minneapolis City Charter, 1856-1925 Jessie McMillan Marcley,1924 **The Humanity of Cities** John Gulick,1989 I recommend this book highly to social scientists who are looking for a review or refresher course in urbanology advanced undergraduate students and introductory graduate students As our American college student bodies become more culturally diverse The Humanity of Cities provides a welcome respite from the usual culture bound texts that give limited attention for effect only of the stereotypical Third World Contemporary Sociology Gulick s style is to develop each topic by presenting appropriate case studies He manages to include an enormous range of studies and he wisely reaches out beyond anthropology to the many fields that concern themselves with urban life This book is consequently an excellent compilation of the recent history of theoretical and empirical research on an in cities The 28 page bibliography is itself a tour de force American Anthropologist Combining major urban theories with empirical studies from around the world the author offers poignant glimpses into urban life including the streets of San Francisco as seen through the eyes of a proud garbage collector the marketplace of Ibadan as seen by a petty food trader the curiously empty streets of Fun city a California retirement community and Cairo s teeming cemetery the City of the Dead filling with the living The problems of urban life are shown to be more a result of worldwide forces rather than the intrinsic nature of cities This major new and timely contribution to the field is a most useful way to introduce urban scholars planners and students in a variety of disciplines to The Humanity of Cities A complete teachers manual makes this the perfect text Public Opinion ,1888 **Legislative Document** New York (State). Legislature,1928 **The Literary Digest** ,1919
