Citizens and the State Hans-Dieter Klingemann, Dieter Fuchs, 1995-11-23 Fears that representative democracy in western Europe is in crisis are examined on the basis of trends in mass attitudes over the past two or three decades The evidence suggests not crisis but a changing relationship between citizens and the state This change poses a democratic transformation in the countries of Western Europe Series Description This set of five volumes is an exhaustive study of beliefs in government in post war Europe Based upon an extensive collection of survey evidence the results challenge widely argued theories of mass opinion and much scholarly writing about citizen attitudes towards government and politics The series arises from a research project sponsored by the European Science Foundation Series ISBN 0 19 961880 1 *Citizens and the State* Takashi Inoguchi, Jean Blondel, 2008 This book is about the relationship between citizens and the state Their relationship has tended to be argued from a top down perspective without systematically examining empirical data about their association In contrast *Citizens and the State* analyses the relationship from a primarily bottom up standpoint Using the 18 country cross national survey the Asia Europe Survey data it examines how citizens relate themselves to the state Featuring case studies on France Germany Spain Sweden Britain Taiwan Japan Indonesia Greece Italy Korea the Philippines Portugal Ireland Thailand Malaysia Singapore and China the book systematically examines the relationship by asking three questions how strongly do citizens identify themselves to the country how much confidence do citizens place in the state and its institutions how satisfied are citizens with life and politics Innovatively the book attempts to answer these questions by first setting up six types of relationship between citizens and the state via factor analysis of the survey data pertaining identity confidence and satisfaction then by examining country profiles more closely and beyond the six types The book will be of interest to students and researcher of political science political theory comparative political science Asian Studies European Studies and sociology
