Civic Astronomy:

Civic Astronomy George Wise,2012-11-07 The founding of the Dudley Observatory at Albany N Y in 1852 was a milestone in humanity s age old quest to understand the heavens As the best equipped astronomical observatory in the U S led by the first American to hold a Ph D in astronomy Benjamin Apthorp Gould Jr the observatory helped pioneer world class astronomy in America It also proclaimed Albany s status as a major national center of culture knowledge and affluence This book explores the story of the Dudley Observatory as a 150 year long episode in civic astronomy The story ranges from a bitter civic controversy to a venture into space from the banks of the Hudson River to the highlands of Argentina It is a unique glimpse at a path not taken a way of doing science once promising now vanished As discoveries by the Dudley Observatory s astronomers especially its second director Lewis Boss made significant contributions to the modern vision of our Milky Way galaxy as a rotating spiral of more than a million stars the advance of astronomy left that little observatory behind *Popular Astronomy* ,1917 *Barcelona: An Urban History of Science and Modernity, 1888-1929* Oliver Hochadel,Agustí Nieto-Galan,2016-04-14 The four decades between the two Universal Exhibitions of 1888 and 1929 were formative in the creation of modern Barcelona Architecture and art blossomed in the work of Antoni Gaudi and many others At the same time social unrest tore the city apart Topics such as art nouveau and anarchism have attracted the attention of numerous historians Yet the crucial role of science technology and medicine in the cultural makeup of the city has been largely ignored The ten articles of this book recover the richness and complexity of the scientific culture of end of the century Barcelona The authors explore a broad range of topics zoological gardens natural history museums amusement parks new medical specialties the scientific practices of anarchists and spiritists the medical geography of the urban underworld early mass media domestic electricity and astronomical observatories They pay attention to the agenda of the bourgeois elites but also to hitherto neglected actors users of electric technologies and radio amateurs patients in clinics and dispensaries collectors and visitors of museums working class audiences of public talks and female mediums Science technology and medicine served to exert social control but also to voice social critique *Barcelona An urban history of science and modernity 1888 1929* shows that the city around 1900 was both a creator and facilitator of knowledge but also a space substantially transformed by the appropriation of this knowledge by its unruly citizens *The Long Space Age* Alexander C. MacDonald,2017-01-01 A NASA insider highlights the current and historic roles of private enterprise in humanity s pursuit of spaceflight **Nonequilibrium Phenomena in Plasmas** A. Surjalal Sharma,P. Kaw,2006-05-24 This book presents studies of complexity in the context of nonequilibrium phenomena using theory modeling simulations and experiments both in the laboratory and in nature **Adventures in Order and Chaos** George Contopoulos,2007-09-21 For many years I was organizing a weekly seminar on dynamical astronomy and I used to make some historical remarks on every subject including some anecdotes from my contacts with many leading scientists over the years I described also the development of various

subjects and the emergence of new ideas in dynamical astronomy. Then several people prompted me to write down these remarks which cannot be found in papers or books. Thus I decided to write this book which contains my experiences over the years. I hope that this book may be helpful to astronomy students all over the world. During my many years of teaching as a visiting professor in American Universities (1962-1994) at Yale, Harvard, MIT, Cornell, Chicago, Maryland, and Florida, I was impressed by the quality of my graduate students. Most of them were very bright, asking penetrating questions and preparing their homework in a perfect way. In a few cases, instead of a final examination, I assigned to them some small research projects and they presented their results at the end of the course. They were excellent in preparing the appropriate slides and in presenting their results in a concise and clear way.

Popular Astronomy William Wallace Payne, Charlotte R. Willard, Herbert Couper Wilson, Ralph Elmer Wilson, Curvin Henry Gingrich, 1917 **The Review of Popular Astronomy**, 1928 **Documents of the Assembly of the State of New York** New York (State). Legislature. Assembly, 1909 **The Kalamazoo magazine**, 1963 **Light Pollution Handbook** Kohei Narisada, Duco Schreuder, 2013-06-05. This book deals with light pollution and about the ways to reduce it. Light pollution is one of the negative side effects of artificial outdoor lighting. The term light pollution is an unhappy one but as no better alternative seems to exist it will be used throughout this book. The function of all outdoor lighting is to enhance the visibility or the aesthetics in the nighttime environment. The light should come where it is needed. If not it is spilled causing economic and environmental losses as well as disturbance and discomfort. The overall effects are termed light pollution. A major form of light pollution is the glow extending over the night sky. Sky glow is discussed in many astronomical textbooks and in many popular brochures. The present book is primarily aimed at those responsible for outdoor lighting installations. Thus an engineering approach has been chosen. The level of the book is that of college or University level. The book is organized in two parts. The first seven chapters cover the areas of general interest and conclude with recommendations. The second part deals with the scientific and engineering elaboration of the first part. A number of examples are included that refer to specific outdoor lighting installations and projects that are directly related to the reduction of light pollution. Finally some information is given about the authors.
