Civil Service Of Pakistan:

Political Administrators Aminullah Chaudry,2011 In the sixty three years since Pakistan s independence military dictators have ruled for thirty three For the remaining thirty Pakistan had politicians ranging from the autocratic to the corrupt and inept to the clueless These fluctuations between dictatorship and democracy could have been absorbed by a country with a functional and reasonably neutral civil service Pakistan inherited a well oiled machine in the form of a bureaucracy that had at its core the Indian Civil Service ICS Within no time at all its successor the Civil Service of Pakistan CSP first forged an alliance with the Army and actively undermined the democratic process After the annihilation of the former in what was then East Pakistan in 1971 the bureaucracy aligned itself with Zulfikar Ali Bhutto and after the coup of 1977 put all its weight behind Gen Ziaul Haq This flip flop continued through the so called democratic regimes of Benazir Bhutto and Nawaz Sharif and the dictatorship of Gen Pervez Musharraf The institutional rot occasioned by these shenanigans did incalculable and perhaps irreversible harm to the civil service in Pakistan The ability of this institution to deliver was seriously undermined In sharp contrast neighbor India which inherited the same structure successfully adapted it to meet the demands of a democratic order In Pakistan the crumbling structure of the civil service has been highlighted by political analysts and academicians but rarely by an individual from within As and when civil servants have written they have made an unsuccessful attempt to emphasize their neutrality quoting instances of how they resisted political pressure It is time that the truth is recorded *The Civil Service in Pakistan* Muzaffar Ahmed Chaudhuri,1963 *The Civil Service of Pakistan* Henry Frank Goodnow,1964 **Civil service reforms in Pakistan** Abdul Wajid Rana,2019-11-12 Effective governance is one of the key challenges for both developing and developed countries Governments today are increasingly encountering complex and cross cutting issues such as economic and financial volatility internal and external conflicts growing social tensions adverse demographic trends climate change vulnerabilities weak regulatory regimes huge infrastructure and service delivery gaps state and elite capturing and sustaining rule of law Faced with growing criticism of ineffectiveness of state institutions undermining country s economic social and political development because of weakening capacity of public officials to pace up with emerging challenges there is a renewed interest in reforming the governance and reforming the civil service **Public Administration in South Asia** Meghna Sabharwal,Evan M. Berman,2016-04-19 A state of the art one stop resource Public Administration in South Asia India Bangladesh and Pakistan examines public administration issues and advances in the Indian subcontinent The book fulfills a critical need These nations have the largest public administration programs in South Asia yet existing knowledge on them is fragmented at best Bringing together leading scholars from these countries this book provides both an insider perspective and a scholarly look at the challenges and accomplishments in the region Focusing on the machinery of government the book explores questions such as What is the history of public administration development How are major decisions made in the agencies Why are anti corruption efforts so much a challenge What is the significance

of intergovernmental relations What is the success of administrative reform What are examples of successful social development programs How successful is e government and what are its challenges Why is civil service reform difficult to achieve How is freedom of information being used as a means to combat corruption and invoke grassroots activism What can be learned from the successes and failures While public administration practice and education have become considerably professionalized in the last decade a sufficiently in depth and well rounded reference on public administration in these countries is sorely lacking Most available books tackle only aspects of public administration such as administrative reforms civil service economic developments or public policy and are country specific None provide the in depth analysis of the sphere of public action in South Asia found in this book It supplies an understanding of how public administration can be either the source of or solution to so many of the problems and achievements in the Indian subcontinent

Area Handbook for Pakistan Richard F. Nyrop,1975 *Civil Service Laws in Pakistan* Shahzad Langah,2010 **Pakistan, a Country Study**, 1975 *Reform of the Public Services in Pakistan* Sohail Mahmood,2009 Pakistan after fifty nine years of existence is at a historical crossroads The country faces an acute crisis of governance Problems with the administrative set up include poor planning waste mismanagement inefficiency and the absence of a work ethic Malfunction was the norm not the exception in the bureaucratic structure of the country Excessive discretionary powers overlapping of jurisdictions and the absence of clear cut demarcations of authority and administrative control had weakened government performance The gap between policy making and policy execution was wide partially due to weaknesses in the bureaucracy and the generally low quality of state personnel Independent observers agree that the overall performance of the GOP was poor or lacklustre at best The crisis of governance in Pakistan mainly stems from a deficient federal set up and over centralisation of power in the national government The World Bank among others believes that Pakistan had suffered due to rampant corruption and weak government that had created serious economic imbalances
