**Explaining Civil Society Development** Lester M. Salamon, S. Wojciech Sokolowski, Megan A. Haddock, 2017-09-15 How historically rooted power dynamics have shaped the evolution of civil society globally The civil society sector made up of millions of nonprofit organizations associations charitable institutions and the volunteers and resources they mobilize has long been the invisible subcontinent on the landscape of contemporary society For the past twenty years however scholars under the umbrella of the Johns Hopkins Comparative Nonprofit Sector Project have worked with statisticians to assemble the first comprehensive empirical picture of the size structure financing and role of this increasingly important part of modern life What accounts for the enormous cross national variations in the size and contours of the civil society sector around the world Drawing on the project's data Lester M Salamon S Wojciech Sokolowski Megan A Haddock and their colleagues raise serious questions about the ability of the field's currently dominant preference and sentiment theories to account for these variations in civil society development Instead using statistical and comparative historical materials the authors posit a novel social origins theory that roots the variations in civil society strength and composition in the relative power of different social groupings and institutions during the transition to modernity Drawing on the work of Barrington Moore Dietrich Rueschemeyer and others *Explaining Civil Society Development* provides insight into the nonprofit sector's ability to thrive and perform its distinctive roles Combining solid data and analytical clarity this pioneering volume offers a critically needed lens for viewing the evolution of civil society and the nonprofit sector throughout the world

**Civil Society & Development** Jude Howell, Jenny Pearce, 2001 Setting out to explore critically the way civil society has entered development thinking policy and practice as a paradigmatic concept of the 21st century Howell development studies U of Sussex and Pearce Latin American politics U of Bradford trace the historical path leading to the encounter between the ideas of development and civil society in the late 1980s and how donors have translated these into development policy and programs They find that there are competing normative visions which have deep roots in Western European political thought about the role of civil society in relation to the state and market both among donors and within the societies where donors are operating This leads to donors playing a major role in shaping the character of service provision They also argue that their study exposes the hitherto unexplored power of the market as opposed to solely the state to distort donor programs

*Socialization to Civil Society* Peter Robert Sawyer, 2004-11-11 2005 CHOICE Outstanding Academic Title While many political theorists argue that the problems and failures of American democracy are rooted in the decline of civil society few examine how American institutions socialize citizens to participate in the voluntary associations that comprise civil society Peter Robert Sawyer offers a life history approach to explore citizen involvement within one community in upstate New York Sawyer's informants model enlightened self interest and participate actively in their community's voluntary
