Civilizations and Historical Patterns. An Approach to the Comparative Study of History Neagu Djuvara, 2019-06-25 And in the shadow of the major civilization before it disappeared in its turn how many other cultures have perished without a trace This immense tragedy is being lived now by many cultures with great intensity One has to belong to such a culture in course of extinction or dying slowly even before its flourishing to understand the infinite distress of those who are helplessly watching the inexorable disappearance of their most precious values With each dying culture it is a unique flower that is withering never to bloom again an incomparable fragrance that fades away forever There is in the smallest idioms there is in the Weltanschauung of the smallest tribe doomed to extinction treasures of wisdom and poetry Lost lost for all eternity In the life of peoples as in the whole Creation the most striking thing that actually shocks the mind is the infinite waste of Nature Those who at present are fortunate enough to belong to the universal cultures may still live with the illusion of their perpetuity But for how long Indeed what is left of Ancient Egypt of Mesopotamia of Crete of Mexico and of Peru And how can we be sure that our conceited race that for centuries extends its domination over peoples and things will not also fall one day in torpor and become apathetic
