Civilized Savages:

Savages and Civilization Jack Weatherford, 1995-02-07 A provocative and vivid Minneapolis Star Tribune look at the primitive cultures that have given many gifts to the modern world and how their very existence is now threatened This book should serve as a wake up call to people everywhere Library Journal In Indian Givers and Native Roots renowned anthropologist Jack Weatherford explored the clash between Native American and European cultures Now in *Savages and Civilization* Weatherford broadens his focus to examine how civilization threatens to obliterate unique tribal and ethnic cultures around the world and in the process imperils its own existence As Weatherford explains the relationship between civilized and savage peoples through history has encompassed not only violence but also a surprising degree of cooperation mutual influence trade and intermarriage But this relationship has now entered a critical stage everywhere in the world as indigenous peoples fiercely resist the onslaught of a global civilization that will obliterate their identities *Savages and Civilization* powerfully demonstrates that our survival as a species is based not on a choice between savages and civilization but rather on a commitment to their vital coexistence

Christian civilization and the perils that now threaten it, a lect Patrick John Ryan (abp. of Philadelphia.), 1901 *Paradoxes of Peace in Nineteenth Century Europe* Thomas Hippler, Miloš Vec, 2015-02-19 Peace is often simplistically assumed to be war's opposite and as such is not examined closely or critically idealized in the literature of peace studies its crucial role in the justification of war is often overlooked Starting from a critical view that the value of restoring peace or keeping peace is and has been regularly used as a pretext for military intervention this book traces the conceptual history of peace in nineteenth century legal and political practice It explores the role of the value of peace in shaping the public rhetoric and legitimizing action in general international relations international law international trade colonialism and armed conflict Departing from the assumption that there is no peace as such nor can there be it examines the contradictory visions of peace that arise from conflict These conflicting and antagonistic visions of peace are each linked to a set of motivations and interests as well as to a certain vision of legitimacy within the international realm Each of them inevitably conveys the image of a specific enemy that has to be crushed in order to peace being installed This book highlights the contradictions and paradoxes in nineteenth century discourses and practices of peace particularly in Europe

Humanitarian intervention in the long nineteenth century Alexis Heraclides, Ada DiAlia, 2015-07-01 This book is a comprehensive presentation of humanitarian intervention in theory and practice during the course of the nineteenth century Through four case studies it sheds new light on the international law debate and the political theory on intervention linking them to ongoing issues and paying particular attention to the lesser known Russian dimension The book begins by tracing the genealogy of the idea of humanitarian intervention to the Renaissance evaluating the Eurocentric gaze of the civilisation barbarity dichotomy and elucidates the international legal arguments of both advocates and opponents of intervention as well as the views of major political theorists It then goes on to

examine four cases as humanitarian interventions the Greek War of Independence 1821-31 the Lebanon and Syria 1860-61 the Bulgarian atrocities 1876-78 and the U S intervention in Cuba 1895-98 Humanitarian intervention in the long nineteenth century will be of benefit to scholars and students of international relations international history international law and international political theory An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence

History and Nature in the Enlightenment Nathaniel Wolloch, 2016-04-22 The mastery of nature was viewed by eighteenth century historians as an important measure of the progress of civilization Modern scholarship has hitherto taken insufficient notice of this important idea This book discusses the topic in connection with the mainstream religious political and philosophical elements of Enlightenment culture It considers works by Edward Gibbon Voltaire Herder Vico Raynal Hume Adam Smith William Robertson and a wide range of lesser and better known figures It also discusses many classical medieval and early modern sources which influenced Enlightenment historiography as well as eighteenth century attitudes toward nature in general

Lynching and Leisure Terry Anne Scott, 2022-03-04 Winner 2022 Ottis Lock Endowment Best Book Award from the East Texas Historical Association In *Lynching and Leisure* Terry Anne Scott examines how white Texans transformed lynching from a largely clandestine strategy of extralegal punishment into a form of racialized recreation in which crowd involvement was integral to the mode and methods of the violence Scott powerfully documents how lynchings came to function not only as tools for debasing the status of Black people but also as highly anticipated occasions for entertainment making memories with friends and neighbors and reifying whiteness In focusing on the sense of pleasure and normality that prevailed among the white spectatorship this comprehensive study of Texas lynchings sheds new light on the practice understood as one of the chief strategies of racial domination in the nineteenth and twentieth century South
