Language Development in the Early Years

The Importance of Language

Without enough language, children's enjoyment in early years settings, their wellbeing and future attainment can be negatively impacted.

Language is vital to children's ability to flourish. Without language, children can struggle to access provision and make the most of their time in the early years.

The Impact of Low Language

Language underpins children's ability to explore the world around them and communicate with others. So, low levels of language can make it harder for children to form connections with others and explain their wants, needs and points of view.

This can cause low self-esteem and poor behaviour, as well as making it more difficult for children to make friends.

Lower levels of language can also make it more difficult for children to follow instructions and work independently. It could result in lower levels of understanding and slow their progress in their learning.

In addition, lower language can result in reduced fun and enjoyment, which can mean fewer ideas and creativity for imaginative play.
