Better Lives* Peter Hall,2013-09-11 This book has one central theme how in the United Kingdom can we create better cities  
and towns in which to live and work and play What can we learn from other countries especially our near neighbours in  
Europe And in turn can we provide lessons for other countries facing similar dilemmas Urban Britain is not functioning as it  
should Social inequalities and regional disparities show little sign of going away Efforts to generate growth and spread it to  
the poorer areas of cities have failed dismally Much new urban development and redevelopment is not up to standard Yet  
there are cities in mainland Europe which have set new standards of high quality sustainable urban development This book  
looks at these best practice examples in Germany the Netherlands France and Scandinavia and suggests ways in which the  
UK and other countries could do the same The book is in three parts Part 1 analyses the main issues for urban planning and  
development in economic development and job generation sustainable development housing policy transport and  
development mechanisms and probes how practice in the UK has fallen short Part Two embarks on a tour of best practice  
cities in Europe starting in Germany with the country s boosting of its cities economies moving to the spectacularly  
successful new housing developments in the Netherlands from there to France s integrated city transport then to  
Scandinavia s pursuit of sustainability for its cities and finally back to Germany to Freiburg the city that did it all Part Three  
sums up the lessons of Part Two and sets out the key steps needed to launch a new wave of urban development and  
regeneration on a radically different basis      *Street Pavements and Paving Materials* George William Tillson,1900
