Tolbert, 1998 Early in the twentieth century many American states began experimenting with direct democracy Direct democracy primarily the initiative device allows groups to place directly before voters laws affecting taxation spending term limits school choice gay rights immigration and numerous other state issues Ballot initiatives were expected to allow citizens the option of getting around legislators who were seen as beholden to wealthy interests early defenders of the process argued it would make state politics more responsive to the public will and more responsible ***Citizens as Legislators*** examines direct democracy in America at the end of the twentieth century to see if it has lived up to these expectations The twelve contributors to this volume use the American experience with direct democracy to investigate some fundamental questions of politics Can modern democracy have direct citizen participation in legislation What are the consequences of more or less direct citizen access to government The authors look at the context of the initiative campaigns and detail the rise of the modern initiative

campaign industry They examine how campaigns affect voters and how voters deal with the array of decisions they face in direct democracy states They go on to explain why certain policy outcomes are different in direct democracy states Shaun Bowler is a professor of political science at the University of California Riverside Todd Donovan is a professor of Political Science at Western Washington University He and Shaun Bowler are coauthors of *Demanding Choices Opinion Voting and Direct Democracy* Caroline J Tolbert is an assistant professor of political science at Kent State University

Dubois, 1998 This book describes the history of the initiative process and the major issues that have arisen during its increasing use in recent years By elucidating the problems that have arisen and their possible solutions the authors seek both to inform the debate about the wisdom of the initiative and to offer suggestions for improvement to jurisdictions that choose to use the process With the aid of more than 40 charts and tables the authors compare the major features of the initiative in the American jurisdictions that have adopted the procedure 24 states and the District of Columbia They draw particularly on the experience in California the most frequent U S user of the initiative and a major battleground in the development of ideas about the process The book also discusses the use of the initiative in other countries particularly Switzerland where the process originated and the only other major country in the world that makes extensive use of the initiative today

Young v. Old Susan A. MacManus, 2018-02-12 Arguing that an inter generational war is brewing in the United States this book paints a picture of the ageing of America and what it means for politics and policy questions including social security health care crime jobs social welfare defence and foreign affairs Differences between older and younger citizens are examined in the light of voting and registration patterns ideological and party preferences and varieties of political activism Contemporary media and new technologies are highlighted as sources of disparities and bridges between the generations how they watch politics how they prefer to solve social problems and how inter generational understanding may be improved through communication and education

The Legislature as an Organization Marvin Andrew Harder, Raymond G. Davis, 1979 An innovative approach to legislative study this volume views the Kansas legislature from the perspective of organization theory Authors Marvin A Harder and Raymond G Davis examine the technical and procedural aspects of the legislature that most scholars have overlooked They provide a careful precise theoretical study of the organization and structure administrative and staff relationships and formal processes of the legislature Applying the concepts of organization theory Harder and Davis describe and analyze how the Kansas legislature works They cover the legislative staff the networks of communication and socialization the role of leadership the committees and the legislative functions of lawmaking and of overseeing They also discuss recent changes in the legislature and give a profile of the legislators This book breaks new ground by focusing on organization theory rather than political analysis to explain the dynamics of legislative operations Of particular value to Kansas legislators and students of Kansas legislative process it will also contribute to the general literature about American legislative institutions
