City Night:

Night-time and Sleep in Asia and the West Lodewijk Brunt, Brigitte Steger, 2004-06-01 Ideas and practices concerning sleep and night time are constantly changing and widely varied in different cultures and societies What we do during the day and night is the result of much political struggle Trade unions political parties entrepreneurs leaders and schools boards all have an interest in questions of timing for the opening and closing of shops the starting hours of schools and factories and the number of hours people have to work and sleep By drawing together comparative case studies from countries in both Asia and Europe Night time and Sleep in Asia and the West allows the reader to track the differences in the cultural importance given to the night and to compare the ways in which the challenges and opportunities of modernity have been played out in the East and the West *Georgia O'Keeffe* Adrienne Brown, Sascha T. Scott, Lisa Volpe, 2024 Famed for her images of flowers and Southwestern landscapes Georgia O'Keeffe spent several years exploring the built environment of New York City with brush in hand The artist first moved to the city's newly built Shelton Hotel in 1924 then the tallest residential skyscraper in the world and its soaring heights inspired a five year period of energetic experimentation across media and at a variety of scales with subject matter form and perspective host institution website viewed May 29 2024
