The Oxford Handbook of Criminological Theory Francis T. Cullen, Pamela Wilcox, 2013-02-01 Criminological theory texts typically follow a conventional format Diverse writings are neatly packaged into schools of thought which are given clear labels and conveyed a chapter at a time with topics like control theory in one chapter and strain theory in another The Oxford Handbook of Criminological Theory takes a different approach across the criminological landscape The volume is organized not around schools of thought but around themes that shape much thinking about and research on crime This more unconventional approach seeks to show that criminological theory is not static but dynamic In fact most prominent scholars do not spend their time commenting upon and retesting theoretical propositions that have existed for many years Rather they move into more novel areas areas often located in the interstitial junctures between more traditional theories This Oxford Handbook presents a series of essays that captures not the past of criminology but where theoretical explanation is headed As a result the volume is replete with new ideas discussions of substantive topics with salient theoretical implications and reviews and interpretations of literatures that illuminate promising avenues along which theory and research should evolve Special attention is paid to how criminal participation is shaped intimately by individual traits diverse social contexts the situations in which the choice of crime is made and exposure to coercive experiences Each chapter can be read on its own as furnishing an important analysis of a given theoretical issue yet read as a whole The Oxford Handbook of Criminological Theory offers a unique and deep understanding of criminology at its cutting edge *New York Magazine*, 1995-03-13 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea *Drug dealing in open-air markets* Alex Haroscopos, 2005 **Solving Crime Problems in Residential Neighborhoods** Judith D.
