Dialectic And Difference:

Dialectic and Difference Alan Norrie, 2009-12-04 Dialectic and Difference is the first systematic exploration of Roy Bhaskar's dialectical philosophy and its implications for ethics and justice. That philosophy has three aims: a dialecticisation of original critical realism, a critical realisation of dialectic, and a metacritique of western philosophy. In the first, real absence or negativity links structured being to dialectical becoming in a dynamic world. The second draws on Marx to locate the critical impulse in Hegel's dialectic in a material, open and changing totality. The third identifies a central problem in western philosophy from the Greeks: the failure to think real negativity as the essence of change, ontological monovalence. Bhaskar's ethics connect basic human ontology with universal principles of freedom and solidarity. He marries constellates these with a grasp of how principles are historically shaped. His account of freedom moves from the infant's primal scream to the eudaimonic society but thinks the limits to freedom under modern conditions. The morally real in ethics and justice is displaced and reconfigured as relations between the ideal and the actual. Western philosophy systematically denies the real negativity that drives Bhaskar's dialectic. Metacritique traces this to Parmenides and Plato's account of non-being as difference. It enables a critique of the poststructural radicalisation of difference via Nietzsche and the doctrine of Heraclitan flux. Mobilised as the other of Plato's Forms, this remains a move on Platonic terrain. It too denies real negativity in structured being as the ground of historical change and moral praxis. This text is essential reading for all serious students of social theory, philosophy, and legal theory.

Desire, Dialectic, and Otherness William Desmond, 2013-11-08 Many philosophers since Hegel have been disturbed by the thought that philosophy inevitably favors sameness over otherness or identity over difference. Originally published at a time when the issue was not so widely discussed in the English speaking world, William Desmond here offers a constructive and positive approach to the problem of difference and otherness. He systematically explores the question of dialectic and otherness by analyzing how human desire inevitably seeks immanent wholeness in a manner that opens it to irreducible otherness. He faces the difficulties bequeathed to Continental thought by Hegelian dialectic and its tendency to subordinate difference to identity, whether appropriately or not. Unlike many recent critics of Hegel, he argues that we must preserve what is genuine in dialectic. Granting the positive power of dialectic, Desmond offers his first articulation of a further philosophical possibility, what he terms the Metaxological, a discourse of the between, a discourse doing justice to desire's search for wholeness without any truncating of its radical openness to otherness. In a wide ranging yet unified discussion, Desmond tackles such issues as the nature of the self, the ambiguous restlessness and inherent power of being revealed by human desire, desire's relation to transcendence, its openness to otherness in agapeic good will, and in relation to the sublime as an aesthetic infinitude. Finally, Desmond brings this metaxological understanding to bear on the metaphysical question of the ultimate origin. This book is a remarkable introduction to Desmond's metaxological

philosophy prefiguring many of the ideas with which his later thought is associated This second edition contains a substantial new preface and an afterword to each chapter in which Desmond reflects on the material from the standpoint of his current thinking

Derrida and Queer Theory Christian Hite,2017-05-26 Coming from behind derri re how else to describe a volume called Derrida and Queer Theory as if arriving late to the party or indeed after the party is already over After all we already have Deleuze and Queer Theory and of course Saint Foucault And judging by Annamarie Jagose s Queer Theory An Introduction in which there is not a single mention of Derrida or deconstruction even in the sub chapter titled The Post Structuralist Context of Queer one would think that Derrida was not only late to the party but was never there at all This untimely volume then with wide ranging essays from key thinkers in the field addresses among other things what could be called the disavowed debt to Derrida in canonical queer theory

Geographies of Difference, Indifference and Mis-difference Antonio Augusto Rossotto Ioris,2024-10-17 World renowned scholar of human geography development and environmental change Antonio Ioris presents an original reconceptualisation of the notions of difference and indifference and their impacts on social structures Drawing on a wide range of philosophical debates and offering groundbreaking new insights into geographically specific trends through the lens of indigenous geographies Ioris explores how political actors use notions of difference to foster indifference for the purposes of domination which ultimately crystallizes in what he terms mis difference a calcified difficult to overcome obstacle to concord and fairness that underpins capitalist relations of property and production At the same time Ioris shows how some social actors use the concept of difference for reconciliation for overcoming indifference and mis difference and suggests how these moves can help to fight against ideologies that produce our unequal world and facilitate land grabs Ioris elucidates all of this in concrete terms through a study of the Guarani Kaiowa people in Brazil of how they have been oppressed by state sanctioned indifference and misdifference and of how they are resisting through a contestation of what difference can mean and how it can function in the contemporary world
