Szold, Armando Carbonell, 2010-03-15 Wall Street believes that all public companies should grow smoothly and continuously as evidenced by ever increasing quarterly earnings and that all companies either grow or die Introducing a research based growth model called Smart Growth Edward D Hess challenges this ethos and its dangerous mentality which often deters real growth and pressures businesses to create manufacture and purchase noncore earnings just to appease Wall Street Smart Growth accounts for the complexity of growth from the perspective of organization process change leadership cognition risk management employee engagement and human dynamics Authentic growth is much more than a strategy or a desired result It is a process characterized by complex change entrepreneurial action experimental learning and the management of risk Hess draws on extensive public and private company research

Archaeology and Preservation of Gendered Landscapes Sherene Baugher,Suzanne M. Spencer-Wood,2010-03-11 Historical archaeology of landscapes initially followed the pattern of Classical Archaeology by studying elite men s gardens Over time particularly in North America the field has expanded to cover larger settlement areas but still often with ungendered and elite focus The editors of this volume seek to fill this important gap in the literature by presenting studies of gendered power dynamics and their effect on minority groups in North America Case studies presented include communities of Native Americans African Americans multi ethnic groups religious communities and industrial communities Just as the research focus has previously neglected the groups presented here so too has funding to preserve important archaeological sites As the contributors to this important volume present a new framework for understanding the archaeology of religious and social minority groups they also demonstrate the importance of preserving the cultural landscapes particularly of minority groups from destruction by the modern dominant culture A full and complete picture of cultural preservation has to include all of the groups that interacted form it

Paul and the Gospels Michael F. Bird,Joel Willitts,2013-05-01 This volume which collects together the work of several established scholars attempts to situate the Apostle Paul the Pauline writings and the earliest Christian Gospels together in the context of early Christianity It addresses the issue of how the Christianity depicted in and represented by the individual Gospels relates to the vision of Christianity represented by Paul and the Pauline writings This raises such questions as to what extent did Paul influence the canonical and non canonical Gospels In what way are the Gospels reactions to Paul and his legacy A comparison of the Gospels and Paul on topics such as Old Testament Law Gentile mission Christology and early church leadership structures represents a fruitful area of study While a number of volumes have appeared that attempt to assess the relationship between the historical Jesus and the Apostle Paul relatively few studies on Paul and the Gospels have been

published This volume excellently fills this gap in New Testament Studies and makes a valuable contribution to studies on Christian Origins Pauline research and the Gospels
