Effective Classroom Behaviour Management Strategies

Classroom behaviour management strategies can improve student behaviour and enable teaching and learning to proceed as planned.

Strategy 1: Follow a routine.

A routine ensures that students know what is coming next, so you will spend less time giving out instructions - freeing up time to do the actual work.

Strategy 2: Involve the students in rule-setting.

If the teachers set the rules, the class may not always agree. That's why having an audience with your students is essential when you develop the rules. When children take ownership of the rules, they are likely to follow them and improve behaviour management.

Strategy 3: Make your lessons enjoyable.

Boring, unengaging lessons can lead to disruptive behaviour from students. Structure your activities so that students are engaged and involved. Aim to have them uncover knowledge with practical exercises. Vary your teaching methods and make the work interactive and fun.

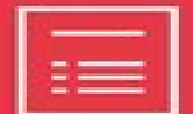

Strategy 4: Use positive language when you set your class rules.

Using positive language makes students feel respected, encouraging better behaviour. Additionally, positive body language will set an excellent example for the kids and help them learn from your demeanor.

Strategy 5: Develop a meaningful relationship with your students.

Getting to know your students individually is crucial to engage them better in the classroom. Find out their interests and dislikes and any potential triggers for bad behaviour.

Strategy 6: Be considerate when giving grades.

Students who get poor marks are typically disruptive in class and deliberately fall short of behaviour expectations to deflect from the real issue. Use an innovative marking rubric. Instead of grading a paper with As or Bs, check the items where they got it right and identify misunderstood concepts. This non-traditional grading method reduces the overwhelming feeling of poor grades.

High school teachers' management strategies towards classroom behaviors of students. A basis for an intervention program Russel Moreno, 2016-12-06 Bachelor Thesis from the year 2015 in the subject Pedagogy. The Teacher Educational Leadership language English abstract. The present study is about the secondary teachers' management strategies regarding their students' classroom behavior in Pilot and Lower hetero sections in Manuel S. Enverga University Foundation, Candelaria, Inc. within the school year 2014-2015. This study has three important purposes: 1) to identify the behaviors of students in Pilot and Lower hetero classes; 2) to determine the management strategies of teachers regarding their students' classroom behavior; and 3) to view the differences between the management of high school teachers regarding the behaviors of students in Pilot and Lower hetero class. Moreover, the researcher aims to improve the managerial skills of teachers with the aid of the findings and able to use to develop an intervention program. The respondents of the study are twenty-four (24) faculty members of Secondary Education level in Manuel S. Enverga University Foundation, Candelaria, Inc. and were chosen through the use of purposive sampling method. Criteria were set so that the researcher would come up with the appropriate number of respondents. Respondents were given two sets of questionnaires with the same contents: one for Pilot class and other is for Lower hetero class. First part was designed to identify the behavior of students and the second was designed for the management of teachers in pilot and lower hetero classes based on time, instruction, classroom environment, relation, and discipline. The researcher sought the permission of the administrator/school principal during the data gathering procedure. The questionnaire was administered, collected, tallied, tabulated, and interpreted. The study revealed that the students from pilot class are identified to be class achievers and the lower hetero class is classroom helpers. Teachers, on the other hand, identified that both students from pilot and lower hetero classes are exhibiting aggressive behaviors. Teachers also revealed that they ALWAYS manage their time, instruction, classroom environment, relation, and discipline. In terms of differences, they revealed that there is SIGNIFICANT DIFFERENCES in time and discipline with the t-computed values of 1.82 and 2.7 respectively. However, they found out that there is NO SIGNIFICANT DIFFERENCES in terms of instruction and relation with the t-computed values of 0.12 and 0.59 respectively and has NO DIFFERENCE in classroom environment with the t-computed value of 0.
