Debating Revolutions:

Debating Revolutions Nikki R. Keddie, 1995-09 Throughout history and especially in this century revolutions have played a central role in human history Yet as both the Iranian revolution of 1978 79 and the revolutions of 1989 in Eastern Europe made clear revolutions are rarely predictable nor attributable to a single cause Debating Revolutions brings together some of our best social and political thinkers to address two central questions of revolution Can they be predicted And what are their causes In the debating style of Contention the award winning journal from which the essays are culled the contributors among them Charles Tilly Jack A Goldstone Edward Berenson Said Amir Arjomand and Daniel Chirot focus on the Iranian Eastern European and French revolutions and on the theoretical and comparative aspects of revolutionary study Unlike most anthologies Debating Revolutions has a format that enables scholars to engage one another in discussion thus resolving many disputes and addressing dilemmas rather than merely outlining differences *Debating Modern Revolution* Jack R. Censer, 2016-02-11 Revolution is an idea that has been one of the most important drivers of human activity since its emergence in its modern form in the 18th century From the American and French revolutionaries who upset a monarchical order that had dominated for over a millennium up to the Arab Spring this notion continues but has also developed its meanings Equated with democracy and legal equality at first and surprisingly redefined into its modern meaning revolution has become a means to create nations change the social order and throw out colonial occupiers and has been labelled as both conservative and reactionary In this concise introduction to the topic Jack R Censer charts the development of these competing ideas and definitions in four chronological sections Each section includes a debate from protagonists who represent various forms of revolution and counterrevolution allowing students a firmer grasp on the particular ideas and individuals of each era This book offers a new approach to the topic of revolution for all students of world history

Debating Modern Revolution Jack Richard Censer, 2020 Revolution is an idea that has been one of the most important drivers of human activity since its emergence in its modern form in the 18th century From the American and French revolutionaries who upset a monarchical order that had dominated for over a millennium up to the Arab Spring this notion continues but has also developed its meanings Equated with democracy and legal equality at first and surprisingly redefined into its modern meaning revolution has become a means to create nations change the social order and throw out colonial occupiers and has been labelled as both conservative and reactionary In this concise introduction to the topic Jack R Censer charts the development of these competing ideas and definitions in four chronological sections Each section includes a debate from protagonists who represent various forms of revolution and counterrevolution allowing students a firmer grasp on the particular ideas and individuals of each era This book offers a new approach to the topic of revolution for all students of world history *Handbook of Revolutions in the 21st Century* Jack A. Goldstone, Leonid Grinin, Andrey Korotayev, 2022-05-19 The 21st century has witnessed a considerable and increasing number of political revolutions around

the world This contradicts the popular belief of many experts in the 1970s that revolutions occurred mainly in monarchies and empires Instead the revolutions of this century have several new characteristics which call for a renewed analysis of the subject This handbook offers a comparative perspective on the new wave of revolutions of the last decade Presenting case studies on the color revolutions the Arab revolutions of 2010 2011 and the global wave of revolutions in 2013 2018 that spanned regions ranging from Africa to the Caucasus it offers a better understanding of the varied forms features and historical backgrounds of revolutions as well as their causes Accordingly it highlights recent revolutions in their historical and world systems contexts The handbook is divided into seven parts the first of which examines the history of views on revolution and important aspects of the theory of revolution The second part analyzes revolutions within long term historical trends and in their world system contexts In turn the third part explores specific major revolutionary waves in history The fourth part analyzes the first revolutionary wave of the 21st century 2000 2009 the so called color revolutions while the fifth discusses the second wave the Arab Spring 2010 2013 as an important turning point The sixth part is dedicated to analyzing revolutions and revolutionary movements beyond the Arab Spring and some revolutionary events from the third wave that began in 2018 The seventh and final part offers forecasts on the future of revolutions Given its scope the book will appeal to scholars and students from various disciplines interested in historical trends sociopolitical change contentious politics social movements and revolutionary processes involving both nonviolent campaigns and political violence Once again this volume demonstrates the kind of open minded systematic analysis that the field of revolutionary studies requires Prof George Lawson Department of International Relations Australian National University Canberra

The Future of Revolutions John Foran, 2003 The 20th Century was pre eminently an age of revolutions in Russia China Cuba and elsewhere that fundamentally transformed the nature of politics and social arrangements As we enter a new century has it got harder for revolutions to occur in the new unipolar globalized world Here John Foran asks is the era of revolution over if so why and if not what might the revolutions of the future

An Analysis of Jack A. Goldstone's Revolution and Rebellion in the Early Modern World Etienne Stockland, 2017-07-05 Understanding why revolutions take place when they do and as they do is important in itself Understanding how they are rooted in the societies they upend and the ways in which those societies share crucial similarities is arguably even more so The enduring influence of Jack Goldstone's Revolution and Rebellion lies as much in the challenge that it issues to the long dominant model of western exceptionalism the idea that it was early modern Europe's distinctive history that launched it on the path to world domination as it does in the book's persuasive account of revolutions rooted in a four stage process that advances from fiscal crisis through inter elite conflict and mass mobilization potential to the breakdown and re making of culture and ideology It can be argued that this unexpected outcome one that the author himself did not anticipate is the product of an acute problem solving ability one that made Goldstone particularly receptive to alternative possibilities His insistence that early modern and modern European and Asian peoples

have vastly more in common than was generally recognised and followed a similar path of advanced organic development that left Qing China as vulnerable to revolution as the France of the Ancien R gime has not only become a central contention of early 21st century sociology it has also underpinned the creation of multiple theoretical models that have nothing to do with revolution None of this would have been possible had not Goldstone challenged himself by asking questions that other scholars had supposed had mundane answers

A Concise History of Revolution Mehran Kamrava,2020 From rebellion to revolution Social movements and revolution Revolutionary states Revolutionary polities *Modern Latin American Revolutions* Eric Selbin,2018-02-07 In contrast to previous studies that have centered on the institutionalization of revolution in Latin America and the Caribbean *Modern Latin American Revolutions* Second Edition introduces the concept of consolidation of the revolutionary process the efforts of revolutionary leaders to transform society and the acceptance by a significant majority of the population of the core of the social revolutionary project As a result the spotlight is on people not structures and transformation not simply revolutionary transition The second edition of this acclaimed book has been revised to include new information on the cases of Bolivia Cuba Nicaragua and Grenada assessing the extent to which each revolution was both institutionalized and consolidated This edition also boasts expanded coverage on Ch uevara s visionary leadership and an all new section that addresses the future of revolution in Latin America and the Caribbean Dr Selbin argues that there is a strong link between organizational leadership and the institutionalization process on the one hand and visionary leadership and the consolidation process on the other Particular attention is given to the ongoing revolutionary process in Nicaragua with an emphasis on the implications and ramifications of the 1990 electoral process A final chapter includes brief analyses of the still unfolding revolutionary processes in El Salvador and Peru

The Iranian Revolution Then And Now Dariush Zahedi,2018-02-13 In *The Iranian Revolution Then and Now* Dariush Zahedi assesses the Islamic Republic s potential for revolution through an in depth theoretically informed comparative analysis of the present with 1979 pre Revolutionary Iran Zahedi discusses how the potential for a revolutionary coup is based on two things the inherent defects and vulnerabilities in the regime and the coordinated actions of the social groups and individuals opposed to the regime He also identifies two ideal typical forms of revolutionary change In *The Iranian Revolution Then and Now* Dariush Zahedi assesses the Islamic Republic s potential for revolution through an in depth theoretically informed comparative analysis of the present with 1979 pre Revolutionary Iran Zahedi discusses how the potential for a revolutionary coup is based on two things the inherent defects and vulnerabilities in the regime and the coordinated actions of the social groups and individuals opposed to the regime He also identifies two ideal typical forms of revolutionary change the regime collapses on its own or the regime is overthrown He concludes that the chances for overthrowing the present regime are moderate

Parliamentary Papers Great Britain. Parliament. House of Commons,1905 Revolution Mark N. Katz,2001 Although the causes of revolution are often internal the occurrence of revolution has serious international consequences existing

alliances are upset the importance of small and weak countries may be magnified and serious efforts may be required to prevent the export of revolutions to other countries Mark N Katz brings together twelve readings from an impressive group of scholars that shed light on this important link between revolution and international relations Katz introduces students to the ways in which revolution has impacted the international system and to key terms so they are better prepared to critically read and analyze the selections that follow A distinctive feature of this collection and one guaranteed to spark lively classroom discussion is the inclusion of contending views in each part that explore a particular issue The readings in Part I for example present differing arguments on why the link between revolution and international conflict exists or how it occurs The authors excerpted in Part III disagree about the success or failure of democratization as a means to preempt revolution And the final section offers opposing views as to the future impact of revolution on the international system Abundant pedagogy throughout the volume guides students through each reading Both a general and part introductions frame the readings while selection headnotes and critical thinking questions offer background information and underscore important cross cutting themes In addition an annotated list of suggested readings points students toward resources for further study and research

Sessional Papers Great Britain. Parliament. House of Commons,1905 **Negotiated Revolutions** George Lawson,2005 In *Negotiated Revolutions* George Lawson reclaims the concept and practice of revolution from the triumphalism of the contemporary world and illustrates how the nature of revolution changes over both time and place

From Revolution to Reform He Li,2004 In *From Revolution to Reform* He Li examines political and economic transformation in China and Mexico from the Mexican and Chinese revolutions at the beginning of the 20th century to economic reforms and political liberalization in recent decades Li also explores lessons that other developing countries could learn from the experiences of China and Mexico **Ideological Roots of Waves of Revolution** Colin J. Beck,2009

Modern Revolution Daniel Charles Brook,1997 Harmony and Discord Elizabeth Skomp,Roman Žyla,2003 *Modern Revolution* Daniel Brook,2005 Using a comparative historical methodology this book analyzes and contrasts the 1989 Velvet Revolution in Czechoslovakia with China s Tiananmen Square rebellion from socio cultural and political economic perspectives *Scotland and the French Revolution* Henry William Meikle,1912 **The American revolution, 1776-1783** Claude Halstead Van Tyne,1905
