Small Groups and Foreign Policy Decision-making Dean A. Minix,1982 **The Constitution and the Conduct of American Foreign Policy** David Gray Adler,Larry Nelson George,1996 In this provocative and readable volume eleven leading constitutional authorities challenge business as usual in American foreign policymaking For far too long they contend Americans have acquiesced to presidential claims to sweeping executive powers in foreign affairs thanks to imperial minded presidents a weak willed Congress and neglectful scholars These authors forcefully argue that the president is not the supreme crafter of foreign policy and that Congress must provide more than a rubber stamp for the

president s agenda Unilateral presidential control of foreign relations they warn can pose a grave threat to our nation s welfare and is simply without constitutional warrant Combining constitutional theory with keen historical insights these authors illuminate the roots of presidential abuse of executive power and remind us of the past and potential costs of such disregard for our unique system of checks and balances An essential guide for all concerned citizens and members of Congress this volume should help revive a proper understanding of this crucial dimension of American democracy

Making Foreign Policy Decisions Christopher J. Fettweis,2015-08-31 It is often said that voters hold presidents responsible for two things the economy and foreign policy Economic performance is generally beyond presidential control but foreign policy is defined by the president The White House is justifiably blamed or credited for how it manages relations with the outside world How then can presidents maximize their chances to achieve successful foreign policies What kinds of considerations should they bear in mind as they make important decisions for their country Foreign policy begins with the process of making decisions This briefing book examines foreign policy decision making and offers advice to current and future presidents drawn from fields ranging from political science and history to psychology and economics It identifies basic guidelines that presidents should consider when making choices Such guidelines apply to almost any area of human endeavor and they are certainly central to choices made in and outside of the Oval Office When the strong make mistakes the weak often suffer As the strongest country in the history of the world the United States has a special responsibility to run a sagacious foreign policy This briefing book will benefit students policy makers and the general public *Human Rights Foreign Policy Decision Making in the U.S. State Department and Bureau of Human Rights and Humanitarian Affairs* David Earl Morrison,1987 The "highly Crucial" Decision Making Model for Postwar Japan and Prime Minister Hatoyama's Policy Toward the USSR Motohide Saito,1989 **Decision-making as an Approach to the Study of International Politics** Richard Carlton Snyder,1954 Bureaucracy and Foreign Policy Francis Edward Rourke,1972
