Decision Analysis For Program Evaluators:

Decision Analysis for Program Evaluators Gordon F. Pitz, 1984 *Decision Analysis for Program Evaluation* Mark S. Thompson, 1982 **Decision Analysis for Program Evaluators** Gordon F. Pitz, Jack McKillip, 1984 Programme evaluation covers a wide range of decision making activities from problem conceptualization through to integration of information In addition the results of evaluation activities are closely connected with the need to make decisions and formulate policy This book shows how the principles of decision analysis can be used by programme evaluators as part of the process of need assessment outcome evaluation and policy analysis The majority of the book is devoted to a description of multiattribute utility theory and to the analytic methods that are derived from the theory The authors assume no technical background beyond elementary algebra and present applications of decision analysis to evaluators in a variety of fields **Decision Analysis for Program Evaluators** Gordon F. Pitz, Jack McKillip, 1984-09 Programme evaluation covers a wide range of decision making activities from problem conceptualization through to integration of information In addition the results of evaluation activities are closely connected with the need to make decisions and formulate policy This book shows how decision analysis can be used as part of the process of need assessment outcome evaluation and policy analysis **Decision Analysis Technique for Program Evaluation (Goal Programming)**. Thomas J. McGeehan, AUERBACH ASSOCIATES INC PHILADELPHIA PA., 1977 A mathematical decision model for information service planning was derived from administrative goals Program plans are assessed in the context of performance goals for six areas available staff available budget program effectiveness functional requirements basic service requirements investment programs to insure future progress The technique is an extension of linear programming that calculates optimal solutions to decision problems in the areas of resource allocation policy analysis and program evaluation according to a set of preemptive priorities established by management The report includes a program in FORTRAN 4 for computing solutions Author **Decision Analysis for Healthcare Managers** Farrokh Alemi, David H. Gustafson, 2006-11-15 Should we invest in a new electronic health record system What public policy should we develop to tackle this health issue What are the root causes for medical errors in our facility Should our hospital merge with another organization This book will help you build the skills you need to answer complex management and policy questions The first part of the book explains the various analytical tools that simplify and accelerate decision making Learn about tools that help you determine causes evaluate choices and forecast future events For occasions when a group rather than an individual has to make a decision you will also learn what tools can help you create group consensus The second half of the book shows you how to apply analytical tools to different healthcare situations including comparing clinician performance determining the causes for medical errors analyzing the costs of programs and determining the market for new services Many practical examples walk you step by step through common decision making scenarios Companion website enhances learning and clarifies concepts Access a comprehensive companion website that

includes additional tools for building decision making skills At the companion website you can Listen to narrated lectures of key points View students examples of rapid analysis exercises Follow animated examples of how to use computer programs to conduct an analysis Link to websites that provide additional information including access to software and online tools that aid decision analysis Download PowerPoint slides that highlight important concepts of each chapter [An Application of Decision Analysis to Variable Selection in Program Evaluation](#) Judith Silverman Ames,1982 **EPA-600/9** ,1980-12
