100 Decisive Battles Paul K. Davis, 2001 Surveys the one hundred most decisive battles in world history from the Battle of Megiddo in 1469 B C to Desert Storm 1991 The Fifteen Decisive Battles of the World from Marathon to Waterloo Edward Shepherd Creasy, 1910 Index to the World's Great Classics ,1902 **The World's Great Classics Comprising a General Index, a Subject Index, and Index of Authors, and a Chronological Index** ,1902 **The World's Great Classics: Ancient history, by G. Nolan, 2017 Stretching from Antiquity to the Second World War a major new work of history that examines how battles have been fought and reveals how wars have actually been won The World's Great Classics ,1902 Index to the World Great Classics ,1902 **Index to The World's Greatest Literature** ,1902 **The Battle of Vouillé, 507 CE** Ralph W. Mathisen, Danuta Shanzer, 2012-07-04 This volume highlights the heretofore largely neglected Battle of Vouill in 507 CE when the Frankish King Clovis defeated Alaric II the King of the Visigoths Clovis victory proved a crucial step in the expulsion of the Visigoths from Francia into Spain thereby leaving Gaul largely to the Franks It was arguably in the wake of Vouill that Gaul became Francia and that France began The editors have united an international team of experts on Late Antiquity and the Merovingian Kingdoms to reexamine the battle from multiple as well as interdisciplinary perspectives The contributions address questions of military strategy geographical location archaeological footprint political background religious propaganda consequences both in Francia and in Italy and significance There is a strong focus on the close reading of primary source material both textual and material secular and theological **Classified List** Princeton University. Library, 1920 Military Review ,2004 **Seven Myths of Military History** John D. Hosler, Alfred J. Andrea, Andrew Holt, 2022-03-01

This brief provocative and accessible book offers snapshots of seven pernicious myths in military history that have been perpetrated on unsuspecting students readers moviegoers game players and politicians It promotes awareness of how myths are created by the spurious misuse and ignorance of history and how misleading ideas about a military problem as in asymmetric warfare can lead to misguided solutions Both scholarly and engaging this book is an ideal addition to military history and historical methodology courses In fact it could be fruitfully used in any course that teaches critical thinking skills including courses outside the discipline of history Military history has a broad appeal to students and there s something here for everyone From the so called Western Way of War to its sister myth technological determinism to the academic party game of once faddish Military Revolutions the book shows that while myths about history may be fun myth busting is the most fun of all Reina Pennington Norwich University *The Periodical* ,1916 **Collected Works of V.I.
