## **Deconstructing Disney:**

**Deconstructing Disney** Eleanor Byrne, Martin McQuillan, 1999-10-20 Demonising Disney is nothing new Disney films have long been synonymous with a certain conservative patriarchal heterosexual ideology occupying a centre stage position at the heart of the evil empire Deconstructing Disney takes issue with knee jerk polarities overturning classical oppositions and recognising that just as the Disney text has changed so too must the terms of critical engagement This book is a sharply focused deconstruction of the political culture and the cultural politics of the Disney canon in the years since the emergence of the so called New World Order Eleanor Byrne and Martin McQuillan offer a critical encounter with Disney which alternates between readings of individual texts and wider thematic concerns such as race gender and sexuality the broader context of American contemporary culture and the global ambitions and insularity of the last great superpower The movies discussed include *The Little Mermaid* *The Lion King* *Pocohontas* *Snow White* *Bedknobs and Broomsticks* *Dumbo* *Peter Pan* *The Jungle Book* *Hercules* and *Mulan*

**Debating Disney** Douglas Brode, Shea T. Brode, 2016-06-30 With stakes in film television theme parks and merchandising Disney continues to be one of the most dominant forces of popular culture around the globe Films produced by the studio are usually blockbusters in nearly every country where they are released However despite their box office success these films often generate as much disdain as admiration While appreciated for their visual aesthetics many of these same films are criticized for their cultural insensitivity or lack of historical fidelity In *Debating Disney* Pedagogical Perspectives on Commercial Cinema Douglas Brode and Shea T Brode have assembled a collection of essays that examine Disney's output from the 1930s through the present day Each chapter in this volume represents the conflicting viewpoints of contributors who look at Disney culture from a variety of perspectives Covering both animated and live action films as well as television programs these essays discuss how the studio handles social issues such as race gender and culture as well as its depictions of science and history Though some of the essays in this volume are critical of individual films or television shows they also acknowledge the studio's capacity to engage audiences with the quality of their work These essays encourage readers to draw their own conclusions about Disney productions allowing them to consider the studio as the hero as much as the villain in the cultural deliberation *Debating Disney* will be of interest to scholars and students of film as well as those with an interest in popular culture

**Animation and America** Paul Wells, 2002 Discusses the distinctiveness of the cartoon form as well as myriad other types of animation production and examines animation's importance as a barometer of the social conditions in which it is made and which it reflects back cover

**The American Child** Caroline Field Levander, Carol J. Singley, 2003 From the time that the infant colonies broke away from the parent country to the present day narratives of U S national identity are persistently configured in the language of childhood and family In *The American Child* A Cultural Studies Reader contributors address matters of race gender and family to chart the ways that representations of the child typify historical periods and conflicting ideas They build on the recent critical

renaissance in childhood studies by bringing to their essays a wide range of critical practices and methodologies Although the volume is grounded heavily in the literary it draws on other disciplines revealing that representations of children and childhood are not isolated artifacts but cultural productions that in turn affect the social climates around them Essayists look at games pets adolescent sexuality death family relations and key texts such as *The Adventures of Huckleberry Finn* and the movie *Pocahontas* they reveal the ways in which the figure of the child operates as a rich vehicle for writers to consider evolving ideas of nation and the diverse role of citizens within it *Thinking Straight* Chrys Ingraham,2005 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company **Living in the Landscape** Arnold Berleant,1997 In *Living in the Landscape* Arnold Berleant explores new ways of thinking about how we live and might live in the landscapes that enfold us Through the concepts of aesthetic engagement and environmental continuity he proposes a new paradigm that offers a holistic approach to the meaning of place and places of meaning in our lives Although environmental aesthetics is linked in the popular mind to dramatic vistas and monumental landscapes the Grand Canyon for example Berleant is much more concerned with the commonplace settings of everyday life He argues that our active appreciation of or aesthetic engagement with the prosaic landscapes of home work local travel and recreation plays a vital role in our discovery of hidden continuities as well as pleasure and meaning in the places we inhabit Berleant begins with a general introduction to environmental aesthetics identifying the kinds of experience meanings and values it involves and describing its historical sources and the issues with which it is concerned In the rest of the book he spotlights new directions in the field as they relate to education community creativity and the sacred and provides an insightful analysis of negative environmental aesthetics Throughout he is both thoughtful and entertaining as evidenced in his extended critique of the pop post modern environment of Disney World Berleant addresses issues commonly associated with the environmental movement e g preservation pollution control and quality of life But his study draws from a wide range of disciplines and for that reason should also appeal to scholars and students interested in art and aesthetics landscape architecture and planning urban and environmental design and cultural geography as well as environmental studies *New Formations* ,1987 **Sociological Abstracts** Leo P. Chall,2002 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers **Comic Art of the United States Through 2000, Animation and Cartoons** John Lent,2005 Provides information on U S and Canadian comic art animation caricature and gag political illustrative and magazine cartoons Provides citations of books chapters articles and fugitive materials gleaned from a variety of sources worldwide including many periodicals and journals *Turning the Page* Fiona M. Collins,Jeremy Ridgman,2006 Since the nineteenth century children s literature has been adapted for both the stage and the screen As the twentieth century progressed

children's books provided the material for an increasing range of new media from radio to computer games from television to cinema blockbuster. Although such adaptations are now recognised as a significant part of the culture of childhood and popular culture in general, little has been written about the range of products and experiences that they generate. This book brings together writers whose work offers contrasting perspectives on the process of adaptation and the varying transformations, social, historical and ideological, that take place when a text moves from the page to another medium. Linking all these contributions is an interest in the changing definition of children's literature and its target audience within an increasingly media-rich society.

**The Fashion Doll** Juliette Peers, 2004-06-01. Feminists have argued that the Barbie doll perpetuates unrealistic standards of feminine beauty and undermines the credibility of women that her long slender plastic limbs and tiny waist fetishize the female body in unnatural ways and that her mature, overtly fashionable image promotes consumerism and superficiality over and above women's liberty and intellect. Depending on the viewer, Barbie is either a malign symbol of the strategies of the capitalist system or she is a symbol of glamour, high fashion and style, a fascinating index of cultural change and nostalgic memory. Yet both Barbies fans and detractors assume that she stands alone. In reality, she is the most high profile of a series of iconic dolls that over the past century and a half have been intimately connected to notions of fashionability. The prominence of haute couture in popular culture suggests that the link between fashion marketing and dolls should be an obvious one. Yet to date, this connection has not been systematically explored. Doll collecting has been viewed as an enthusiasts or curatorial preserve while the volumes these artefacts speak about culture and identity has not been adequately interrogated. Peers' original and shrewd analysis fills a major gap in cultural studies by examining in depth the dolls' associations with concepts of femininity and fashionability.

This is the make a difference generation and all over America, high school and college students are rolling up their sleeves and devoting their time and energy to causes they believe in. Making a Difference Scholarships is a unique guide written especially for caring students. The guide lists distinguished scholarships awarded for social service, social entrepreneur funds for young people who start their own non-profits, college-based service scholarships and fellowships for studies such as labor, peace and the environment. Many of these scholarships are exceptionally large, in the 5,000 to 10,000 range. And winners of these awards substantially increase their chances of being admitted to the college of their choice. **The Post-Utopian Imagination** M. Keith Booker, 2002-01-30 In America the long 1950s were marked by an intense skepticism toward utopian alternatives to the existing capitalist order This skepticism was closely related to the climate of the Cold War in which the demonization of socialism contributed to a dismissal of all alternatives to capitalism This book studies how American novels and films of the long 1950s reflect the loss of the utopian imagination and mirror the growing concern that capitalism brought routinization alienation and other dehumanizing consequences The volume relates the decline of the utopian vision to the rise of late capitalism with its expanding globalization and consumerism and to the beginnings of postmodernism In addition to well known literary novels such as Nabokov's *Lolita* Booker explores a large body

of leftist fiction popular novels and the films of Alfred Hitchcock and Walt Disney The book argues that while the canonical novels of the period employ a utopian aesthetic that aesthetic tends to be very weak and is not reinforced by content The leftist novels on the other hand employ a realist aesthetic but are utopian in their exploration of alternatives to capitalism The study concludes that the utopian energies in cultural productions of the long 1950s are very weak and that these works tend to dismiss utopian thinking as naïve or even sinister The weak utopianism in these works tends to be reflected in characteristics associated with postmodernism
