## **Complex Predicates In Oceanic Languages:**

*Complex Predicates in Oceanic Languages* Isabelle Bril, Françoise Ozanne-Rivierre, 2012-04-17 Serial verbs and complex predicates have a long history of research yet there is comparatively little documentation on Oceanic languages This volume presents new data for further typological studies While previous research on serial verbs in Oceanic languages was mostly devoted to core serial constructions with non contiguous sV o sV o nuclei this volume contributes a more detailed investigation of the nuclear type of complex predicates involving contiguous sVV o nuclei Complex predicates of the form VV may correspond to two different syntactic structures either co ranking or hierarchized head modifier Though the VV pattern does evidence a tendency towards structural compression often entailing the fusion of the argument structures of two or more nuclei yet it cannot be reduced to cases of co lexicalization compounding or grammaticalization The data also show the nuclear type to be compatible with all types of basic word orders VSO VOS SVO SOV with no evidence that this results from any word order change This challenges the claim that nuclear serialization correlates with verb final order and core serialization with verb medial order
