Malone,2009-05-05 A bold vision about the ways companies will adapt and be reborn in a revolutionary world where business models implode and the search is on for what will work The fate of newspapers and the music industry is a harbinger of what awaits every company an aging business model in its death throes as people finally wake up to the grim fact that their products and the way they deliver them are completely out of sync not only with what customers want but how they want it But Michael Malone the author who when the Internet was still the domain of technical experts enabled his readers to see clearly the opportunities of the then emerging digital age is back and once again making sense of a future just around the corner Business considerations such as the wireless World Wide Web billions of new consumers and an entrepreneurial ethos are all converging How a corporation is organized and how people will be managed and employed will change more quickly than anyone realizes With technology poised to connect a billion new consumers from the most remote parts of the globe corporations will enter a volatile economic era marked by unprecedented threats and opportunities Survival will require companies to be protean nimble shape shifters able to change direction and identity in response to a rapidly evolving international marketplace They must in other words act like perpetual entrepreneurial start ups In our Web 2.0 world the future arrived yesterday since the tools for success already exist and are the means for companies becoming protean Malone provides remarkable insights into how this emerging corporate form will work and why it's the key to competitiveness Find out Why the traditional CEO as master of the universe will be extinct The CEO will be a chameleon adapting management style and attitude to each company's constituency How to identify a core group of employees who will provide stability through their knowledge of the company's history values and culture How to effectively recruit manage and retain the best

talent in an increasingly nontraditional entrepreneurial and peripatetic workforce Who stakeholders are why they matter and how they will extend beyond any comparable business organization to this point Why the rigid boundaries between for profit and nonprofit ventures are likely to dissolve through alternate forms of value creation resulting in hybrid enterprises By embracing impermanence and becoming true shape shifters protean businesses will not only endure they ll come to dominate large segments of the global economy Provocative and pragmatic The Future Arrived Yesterday is a dynamic blueprint for a tumultuous economic age *The Saturday Review of Politics, Literature, Science and Art* ,1898 **Canadian Government Railways Employees Magazine** ,1925 **A History of the Scottish Highlands, Highland Clans and Highland Regiments** Sir John Scott Keltie,1875
