Circus Colors George Karn,1986-01-01 Circus clowns and animals introduce colors by asking the reader to find objects such as a yellow ball and green bow tie in the illustrations On board pages **Green** Michel Pastoureau,2023-06-13 In this beautiful and richly illustrated book the acclaimed author of Blue and Black presents a fascinating and revealing history of the color green in European societies from prehistoric times to today Examining the evolving place of green in art clothes literature religion science and everyday life Michel Pastoureau traces how culture has profoundly changed the perception and meaning of the color over millennia and how we misread cultural social and art history when we assume that colors have always signified what they do today Filled with entertaining and enlightening anecdotes Green shows that the color has been ambivalent a symbol of life luck and hope but also disorder greed poison and the devil Chemically unstable green pigments

were long difficult to produce and even harder to fix Not surprisingly the color has been associated with all that is changeable and fleeting childhood love and money Only in the Romantic period did green definitively become the color of nature Pastoureau also explains why the color was connected with the Roman emperor Nero how it became the color of Islam why Goethe believed it was the color of the middle class why some nineteenth century scholars speculated that the ancient Greeks couldn't see green and how the color was denigrated by Kandinsky and the Bauhaus More broadly Green demonstrates that the history of the color is to a large degree one of dramatic reversal long absent ignored or rejected green today has become a ubiquitous and soothing presence as the symbol of environmental causes and the mission to save the planet With its striking design and compelling text Green will delight anyone who is interested in history culture art fashion or media **Book News** ,1883 **Giftwares** ,1930 The Billboard ,1926 **Woman's World** ,1929 *Willem de Kooning* Susan Lake,2010 This in depth study of the paintings of Willem de Kooning 1904 1997 from the 1940s through the 1970s breaks new ground in its analysis of the artist's working methods and yields new information about previously unreported materials De Kooning's idiosyncratic working methods have long engendered intense speculation and debate among conservators and art historians primarily on the basis of visual inspection and anecdotal accounts rather than rigorous technical analysis This is the first systematic study of de Kooning's creative process to use comprehensive scientific examinations of the artist's pigments binders and supports to inform art historical interpretations thereby presenting a key to the complicated evolution of the artist's work Written for conservation scientists conservators specialists in modern art history museum curators and practicing artists this book offers insights into the way an artist can achieve radical changes in style The technical discussions will have practical applications for conservators curators collections managers and collectors who care for twentieth century art
