A Handbook For Developing Multicultural Awareness:

A Handbook for Developing Multicultural Awareness Paul Pedersen, 2000 This book examines multicultural awareness training through a three stage developmental sequence as a primary prevention strategy in counseling It attempts to lead readers to find examples of how multicultural awareness can make their counseling task easier rather than harder and can increase their satisfaction in working with clients from other cultures Chapter 1 highlights the three stage model of Awareness Knowledge Skill Chapter 2 details some of the rules to follow in a multicultural perspective to stimulate discussion Chapter 3 discusses the field of alternative therapies Chapter 4 covers the process of developing a cultural identity Chapter 5 presents culture as a pattern narrative or story about who we are and where we came from rather than focusing on current research in the field Chapter 6 focuses on what is not known about multiculturalism rather than focusing on current research in the field Chapter 7 looks at ethical guidelines for counselors Chapter 8 looks at how reframing conflict into cultural categories makes conflict easier to manage Chapter 9 reviews the Triad Training Model as a promising training approach Chapter 10 considers how multiculturalism had a powerful impact on the field of counseling and how this impact is increasing in importance This book also attempts to guide readers toward specific publications and resources already available on developing multicultural awareness Contains 347 references JDM
