volumes bring together ten articles written mainly by native scholars with the general aim of introducing a dialogue about Chinese music from the viewpoint of the insider Chinese Music in the 20th Century Sin-yan Shen,2001 Jade Flute T. C. Lai,Robert Mok,1985 The question what is Chinese music has often been asked but the answer is not easy to give With a history which spans over many thousand years Chinese music has undergone considerable changes due to racial interaction as a result of wars and conquests Many books have been written on the subject but they tend to cater to specialists and do not reach the general public Hence the need for the present volume The book is designed as a general description supported by recent discoveries and research Anecdotes poems and numerous illustrations are used so that the book not only gives the reader an idea of what Chinese music is but also how it is related to its culture literature and art Combining the technical with the literary and artistic is not an easy task The risk is that the result may be too technical for the layman and not learned enough for the specialist It is hoped however that the reader will find here something informative as well as entertaining

a comparative study of New Chinese Music under three different political systems Its conclusions the discovery of and explanations for inherent similarities in those three New Musics will be of interest to sinologists in the field of politics and cultural studies
