Cookson, 1992-08-10 Issues in school choice constitutionality feasibility equity and educational productivity are examined in this book The controversy requires an ongoing analysis of the origins of the school choice movement the kinds of plans proposed and implemented their educational and social consequences and the philosophical assumptions underlying the argument that increased freedom of choice leads to improved student achievement and social equity The first part centers on the political and philosophical issues of school choice Articles include Choice Orientations Discussions and Prospects by Mary Anne Raywid Minerva and the Market The Sources of the Movement for School Choice by Kevin J Dougherty and Lizabeth Sostre Choice The Fundamentals Revisited by Jeffrey Kane Do Parents Choose School Quality or School Status A Sociological Theory of Free Market Education by Amy Stuart Wells and Robert L Crain and The Ideology of Consumerism and the Coming Deregulation of the Public School System by Peter W Cookson Jr The second part provides alternative ways of examining the school choice issue Articles include Public Subsidies for Private Schools What Do We Know and How Do We Proceed by John F Witte Do Private Schools Outperform Public Schools by Albert Shanker and Bella Rosenberg Private Citizenship and School Choice by Michael Johanek The Dutch Experience with School Choice Implications for American Education by Frank Brown and Issues of Choice Canadian and American Perspectives by Stephen B Lawton References accompany each chapter LMI *Educational Controversies Towards a Discourse of Reconciliation* Pamela Lapage, Hugh Sockett, 2004-01-14 For the last 100 years people have argued vigorously about a vast number of educational issues At the heart of the arguments lies the question What is the purpose of education This conflict of educational purpose has seen rifts between academics educators politicians and parents The authors of this book don't believe the conflicts need to be so hysterical nor that the oppositions are incompatible Rather that it is in the manner in which debate is conducted that is so damaging In this book the authors contend that there are political social moral and civic needs for a new stance to debate the way forward Examining a number of key controversies in educational discourse the book suggests ways in which controversies may be reconciled by looking for interrelations mutual dependencies and links of importance It develops current debate and provides suggestions for developing nurturing and supportive learning communities and so lead to educational change

**School Choice and Social Controversy** Stephen D. Sugarman, Frank R. Kemerer, 2011-12-01 In this important new volume distinguished legal and public policy scholars address issues that are critical to the successful drafting and implementation of school choice programs yet are usually overlooked in the choice debate They explore whether school choice is a threat or an opportunity to the many children who are largely deprived of choice today and they offer a variety of perspectives with some authors enthusiastic others more skeptical The book begins with a discussion of the types and extent of school choice what is known about its consequences and how politics has influenced its development It then focuses on three important public policy issues how school choice can revolutionize the

way schools are financed what policy interventions are necessary to increase the supply of choice schools and how choice programs can be held accountable to parents and the state without undermining institutional autonomy The book addresses legal issues including whether public and private choice schools will be required to observe student and teacher rights generally recognized in traditional public schools how the religion and speech clauses of the First Amendment may affect the participation of religious schools in school choice programs whether school choice will enhance or aggravate opportunities for racial justice what the implications of school choice are for teacher unions and collective bargaining and whether children with disabilities will be accommodated in school choice programs under federal disability law Throughout the book the authors offer recommendations for public policy development The contributors are Jeffrey Henig Robert Bulman and David L Kirp Paul T Hill Robert M O Neil Jesse H Choper Betsy Levin William G Buss and Laura F Rothstein Stephen D Sugarman is Agnes Roddy Robb Professor of Law at the University of California Berkeley Frank R Kemerer is Regents Professor and director of the Center for **The School-choice Controversy** James W. *New Directions In Comparative Politics* Howard J. Wiarda, 2018-03-09 As must reading for anyone interested in comparative politics this text is designed to address the theoretical developments and approaches important to the comparative study of political systems today These include developmentalism dependency theory corporatism state society relations political economy public policy analysis indigenous theories of change rational choice and the new institutionalism This text sees the new diversity of approaches as healthy and invigorating The diversity in comparative politics over the past two decades has been reflected in prior editions of this book Whereas these separate approaches once may have been regarded as fragmentary now scholars have come to regard the diverse lines of inquiry as lending complimentary tools of

analysis to our complex modern world The emerging methods of comparative study often provide causeways between previous islands of theory In this new edition all the main approaches to comparative politics are represented in chapter length treatment Several contributors revisit the topics they addressed in the prior editions e g Tony Smith on dependency analysis Lawrence Graham on public policy and Joel Migdal on state society relations Most significantly the third edition introduces readers to new provocative analyses such as Paul Adams on corporatism Anthony Gill on political economy Ronald Inglehart on political culture Gerardo Munck on rational choice A H Somjee on indigenous theory and Frank L Wilson on the new institutionalism Introductory and concluding essays by editor Howard J Wiarda integrate the book placing the different approaches in perspective
