

TEACHING STRATEGIES

Teaching strategies are the strategies, methods, techniques, and plans that teachers put in place to assist student learning. Two selected examples are shown below.

DISCOVERY LEARNING

Discovery learning involves allowing students maximum freedom within a resource-rich environment to 'discover' answers to challenges. It requires students to build upon prior knowledge and use resources available in the environment to increase their own knowledge. Students are not 'told' information; instead, they must discover knowledge for themselves.

GUIDED PRACTICE

The I Do, We Do, You Do method is a guided practice strategy that provides gradual release of responsibility from the teacher to the student. It involves three steps:

- **I Do:** Teacher models the task
- **We Do:** Student and teacher do the task together
- **You Do:** Student attempts to complete the task alone.
