Schwartz, 1985 The center of this

prodigious work of scholarship is a fresh examination of the range of Chinese thought during the formative period of Chinese culture Benjamin Schwartz looks at the surviving texts of this period with a particular focus on the range of diversity to be found in them While emphasizing the problematic and complex nature of this thought he also considers views which stress the unity of Chinese culture Attention is accorded to pre Confucian texts the evolution of early Confucianism Mo Tzu the Taoists the legalists the Ying Yang school and the five classics as well as to intellectual issues which cut across the conventional classification of schools The main focus is on the high cultural texts but Mr Schwartz also explores the question of the relationship of these texts to the vast realm of popular culture

**A History of Classical Chinese Thought** Zehou

Li,2019-08-15 Li Zehou is widely regarded as one of China's most influential contemporary thinkers. He has produced influential theories of the development of Chinese thought and the place of aesthetics in Chinese ethics and value theory. This book is the first English language translation of Li Zehou's work on classical Chinese thought. It includes chapters on the classical Chinese thinkers including Confucius, Mozi, Laozi, Sunzi, Xunzi, and Zhuangzi, and also on later eras and thinkers such as Dong Zhongshu in the Han Dynasty and the Song-Ming Neo-Confucians. The essays in this book not only discuss these historical figures and their ideas but also consider their historical significance and how key themes from these early schools reappeared in and shaped later periods and thinkers. Taken together, they highlight the breadth of Li Zehou's scholarship and his syncretic approach. His explanations of prominent thinkers and key periods in Chinese intellectual history blend ideas from both the Chinese and Western canons while also drawing on contemporary thinkers in both traditions. The book also includes an introduction written by the translator that helpfully explains the significance of Li Zehou's work and its prospects for fostering cross-cultural dialogue with Western philosophy. **A History of Chinese Classical Thought** will be of interest to advanced students and scholars interested in Chinese philosophy, comparative philosophy, and Chinese intellectual and social history.

**Filial Piety in Chinese Thought and History** Alan Chan, Sor-Hoon Tan, 2004-08-02. The phenomenon of filial piety is fundamental to our understanding of Chinese culture, and this excellent collection of essays explores its role in various areas of life throughout history. Often regarded as the key to preserving Chinese tradition and identity, its potentially vast impact on government and the development of Chinese culture makes it extremely relevant and, although invariably virtuous in its promotion of social cohesion, its ideas are often controversial. A broad range of topics are discussed chronologically, including Confucianism, Buddhism, and Daoism, making it essential reading for those studying Chinese culture, religion, and philosophy. This is a multi-disciplinary survey that combines historical studies with philosophical analysis from an international team of respected contributors. **Mencius and Early Chinese Thought** Kwong-loi Shun, Shun, 1997. Throughout much of Chinese history, Mencius (372-289 B.C.) was considered the greatest Confucian thinker after Confucius himself. This study begins a reassessment of Mencius by examining his ethical thinking, how one should live in relation to that of other early Chinese thinkers. **Chinese Thought** Paul Carus, 1907. **The Rise of Modern Chinese Thought** Hui

Wang, 2023-07-18. Wang Hui asks what it means for China to be modern and for modernity to be Chinese. Is there a rupture between tradition and modernity in China? How has Confucian thought evolved? Did China become modern in the Middle Ages? A deep intellectual history. **The Rise of Modern Chinese Thought** revises our senses of both modernity and Chinese philosophy.

**Chinese Thought** Paul Carus, 1907. **Chinese philosophy: an exposition of the main characteristic features of Chinese thought** Paul Carus, 1896. **The Origins of Chinese Thought** Zehou Li, 2018-10-22. Winner of the 2019 Choice Outstanding Academic Title. **The Origins of Chinese Thought** offers an account of the origins and nature of a uniquely Chinese way of thinking that carried through Confucian tradition continues to define the character of Chinese culture and society. Li

Zehou argues that vestiges of the practices of early shamanistic ritual rationalized in ritual regulations and internalized in morals and values continue to shape Chinese thought and relationships. This outlook and its understanding of the world, the divine, ourselves, one another, what is right and what is good, differ fundamentally from other world traditions. As an alternative to modern liberalism, it offers unique resources for addressing modern Chinese and even global philosophic and moral issues.

**Chinese Thought as Global Theory** Leigh Jenko, 2016-05-12

With a particular focus on Chinese thought, this volume explores how and under what conditions so-called non-Western traditions of thought can structure generally applicable social and political theory. Reversing the usual comparison between local Chinese application and universal theory, the work demonstrates how Chinese experiences and ideas offer systematic insight into shared social and political dilemmas. Contributors discuss how medieval Chinese understandings of causal heterogeneity can relieve impasses within contemporary historiography; how current economic and social conditions in China respond proactively to the future configuration of world markets; and how hybrid modes of cross-cultural engagement offer new foundations for the enterprise of learning from cultural others. Each chapter works from Chinese perspectives to theorize the location of knowledge, its conditions of production, and the modes through which its content or adequacy is legitimated, challenged, and sustained. Rather than reproducing Eurocentric knowledge production in Chinese form, the mobilization of Chinese thought as a generally applicable body of theory actually breaks down clear boundaries between Chinese and non-Chinese thought.
