**Defending Europe** Derek Paul, 2021-01-26 This book first published in 1985 examines the questions of European security that lie at the heart of the confrontation between the superpowers It concentrates on ways of achieving defence by conventional means rather than a reliance on nuclear or chemical weapons and at the same time focuses on possible force reductions

*Global Security and the War on Terror* Paul Rogers, 2007-07-04 As the War on Terror evolves into the Long War against Islamo fascism it demands an enduring commitment to ensuring the security of the United States and its allies This policy is based on the requirement to maintain control in a fractured and unpredictable global environment while paying little attention to the underlying issues that lead to insecurity It is an approach that is manifestly failing as the continuing problems in Afghanistan and Iraq demonstrate Moreover control implies the maintenance of a global order that focuses on power remaining in the hands of a transnational elite community principally focused on North America and Western Europe but extending worldwide This elite largely ignores socio economic divisions and environmental constraints and sees continuing stability as being best achieved by the maintenance of the status quo using force when necessary This collection of essays by Professor Paul Rogers argues that this post Cold War security paradigm is fundamentally misguided and unsustainable It concludes with two new essays on the need for a new conception of global security rooted in justice and emancipation *Global Security and the War on Terror* will be essential reading for students and scholars of security studies the Cold War international relations and development studies

*European Security and Defence Policy* Michael Merlingen, Rasa Ostrauskaite, 2008-01-07 Security and defence is the area in which the EU has advanced most in recent years A principal element of this process is the proliferating number of military and civilian crisis management missions in Europe the Middle East Africa and Asia Clearly Europe has come a long way since the disappointments and frustration in the 1990s when in light of the violent disintegration of Yugoslavia analysts argued that the EU foreign and security policy was neither common nor foreign nor dealing with security nor could be called a policy Since then the newly developed European Security and Defence Policy ESDP has become the necessary framework for the formulation and implementation of effective European security policy This book is the first ever in depth inquiry of the ESDP in action It analyzes the implementation of military and civilian missions in the Balkans Southern Caucasus Africa and Asia and asks what impact they have on the ground The EUJUST Themis in Georgia the Aceh Monitoring Mission in Indonesia as well as EUSEC R D Congo and EUPOL Kinshasa are examined in *The European Security and Defence Policy* will be of interest to students and scholars of international relations security European studies foreign policy peacekeeping and transatlantic relations

**Conventional Arms Control and East-West Security** Institute for East-West Security Studies, 1989 This important and timely work prepared by the leading researchers planners and policymakers from both Eastern and Western alliances analyzes the major issues in the Vienna

talks on conventional forces in Europe involving NATO and Warsaw Pact nations It is likely to have a significant influence on the course of these negotiations and on emerging debate on conventional arms control The contributors met in Moscow prior to the Vienna conference to review and compare their analyses and revised them thereafter for publication in this work

**Benelux Security Cooperation** George J. Stein,2019-04-11 This book is an exploration of the security and defense policies of Belgium the Netherlands and Luxembourg with the specific goal of discovering opportunities for greater Benelux security cooperation which could serve as the foundation of a European Defense Community Alternatives in European Security Michael Randle,Paul Rogers,1990 Confidence and Security Building Measures in Europe: From Vienna 1990 to Vienna 1992, documents ,1991 The European Security and Defence Identity ,1998 European Strategic Autonomy and Small States' Security Giedrius Česnakas,Justinas Juozaitis,2022-12-26 This book analyses whether the EU s drift towards European strategic autonomy presents a challenge or a window of opportunity for its small member states to advance their security interests The volume presents small states perceptions of European strategic autonomy highlighting their expectations and concerns The chapters focus on the depth and breadth of European strategic autonomy national security considerations assessment of the impact on transatlantic relations the expected outputs and its potential impact on the EU s institutional structure It also shows how systemic circumstances and the interests of powerful states either belonging to the EU France Germany and Poland or having a significant say in European security architecture the US establish opportunities and constraints for the small states to shape European strategic autonomy In particular the study focuses on the diverging interests of the Baltic states Estonia Latvia and Lithuania Belgium Denmark Greece Hungary and the Netherlands It demonstrates that in most cases European strategic autonomy is perceived not as an alternative to NATO but as a supplementary element that could facilitate the development of national military capabilities indigenous defence industries and resilience to non military threats Ultimately the book suggests that national approaches towards European strategic autonomy mainly stem from pragmatic national security and foreign policy considerations while largely ignoring grand strategic ideas This book will be of much interest to students of European politics security studies and international relations The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license **Ireland, Neutrality and European Security**
