Definition Of The Thing With Some Notes On Language:

What We Owe to Nonhuman Animals Gary Steiner,2023-09-27 This book strongly challenges the Western philosophical tradition's assertion that humans are superior to nonhuman animals It makes a case for the full and direct moral status of nonhuman animals The book provides the basis for a radical critique of the entire trajectory of animal studies over the past fifteen years The key idea explored is that of felt kinship a sense of shared fate with and obligations to all sentient life It will help to inspire some deep rethinking on the part of leading exponents of animal studies The book's strong outlook is expressed through an appeal for radical humility on the side of humans rather than a constant reference to the human animal divide Historical figures examined in depth include Aristotle Seneca and Kant contemporary figures examined include Christine Korsgaard and Martha Nussbaum This book presents an account according to which the tradition has not proceeded on the basis of impartial motivations at all but instead has made a set of pointedly self-serving assumptions about the proper criteria for assessing moral worth Readers of this book will gain exposure to a wide variety of thinkers in the Western philosophical tradition historical as well as contemporary This book is suitable for professionals working in nonhuman animal studies students advanced undergraduates and practitioners working in the fields of philosophy environmental studies law literature anthropology and related fields
